About the E-Conference

An idea about CSR has both ethical and philosophical dimensions particularly in India where there is a wide gap between income and standard of living among different sections of society. In the situation of Covid-19 pandemic the Government of India appealed the corporate houses to donate either in the PM cares Fund or for various other purposes that can be contributed for protecting, healing and preventing the common man from the covid-19 pandemic.

Effective CSR gives a company the power to stand out in today's saturated market and connect with customers on a level that ensures long term loyalty and potentially even brand advocacy.

CSR activities may not necessarily have violated the letter of law but the spirit of such activities is what is required to be looked on whether CSR activities of the companies have fulfilled the objectives of CSR in real sense or whether the objectives of CSR are fulfilled in reality or whether the transparency is maintained in CSR activities or whether the corporate and NGO partnership has achieved their predetermined targets amid Covid-19 pandemic. Hence the theme of E-Conference is Corporate Social Responsibility: In India, amid Covid-19 pandemic.

It will be wise if the companies focus on areas that the society needs to be paid special attention. The contribution of companies in achieving the sustainable environment goals, basic health care, education and hunger etc. This will in turn ensure universal growth through CSR in the country.

Sub –Themes

1)Feasibility of corporate social responsibility initiatives in India in the areas of environment, health, education and hunger: benefits and challenges

2)Corporate and NGO Partnership for successful social responsibility programme in India.

3)Contribution of corporate social responsibility fund: controlling Covid-19 Pandemic.

4)CSR initiatives in Indian Industries, Indian Business, Education, Banking, IT, etc.

BRIDGE COURSE

As per the circular of directors of Higher and Technical Education Departments, the bridge course should be implemented in the first session of the current academic year for the all students who are pursuing professional and traditional UG courses. Each college will have to setup a committee for the initiative and prepare a course.

Bridge Course helps students to make a successful transition into their new academic programs by providing them with the necessary background knowledge about the topics that will be covered in their new courses. In addition, Bridge Courses can also help students to develop the skills and abilities that they need to succeed in their new academic programs.

Faculty conduct introductory classes as Bridge course for newly admitted students in the college. It is starting for 1st semester students of the subject. As per requirement, the spans of this course will one week or fifteen days. Students are introduced with the fundamental concepts of the Computer subject. The Bridge Course is introduced for the new entrants with an objective to provide adequate time needed for the transition from secondary level to graduate level courses. Students, especially new entrants coming from schools, face many problems, for example where and who to deal with post admission administration issues, co-curricular activities and to mix up with classmates coming from different fields and backgrounds.

AIM

- To bridge the gap between previous knowledge and the course opted.

Objective

The objectives of a bridge course are as given below:

- To establish the fundamentals of a subject with the goal that students do not have any trouble when classes at college begin.
- To give a progress stage to set themselves up before the beginning of the primary semester.
- To overcome any barrier between the subjects learned at the pre-university level and subjects at the college level.
- To improve confidence of the slow learners to meet the knowledge requirements.
