FIXCANDLE

No more wobbly candles

Straight candles, every time

Wobbly, leaning candles are one of life's small annoyances. FixCandle from Sweden solves them with two clever little helpers that make any taper sit straight and snug in any holder.

Candle glue is pressed onto the base of the candle and holds it firmly in place, then lets go cleanly when the candle is burned down. It is forever reusable, and one tin is enough for about 100 candles. The candle sharpener shapes the end of a candle that is too wide, so it slips neatly into a narrow holder. Together they make an easy, affordable add-on next to candles and candle holders.
