SOLSTICKAN

Swedish matches, made from Swedish aspen

Swedish wood, Swedish craft

Solstickan matches are made in Sweden from aspen grown in Swedish forests. The wood is cut into splints in Vetlanda, and the match heads are made in Tidaholm. The matches are sulfur-free, with no toxic heavy metals.

Solstickan Design puts these matches in collectible metal tubes with a striker underneath, in colors made to leave out on the table. Mini and long matches, candle-and-match gift sets, fire starters and a few candle accessories round out the line. The walking figure on every tube comes from the original 1936 matchbox label by Swedish artist Einar Nerman.
