### About Me

*I am Hisham Moideen, an undergraduate engineering student from St. Joseph Engineering College.*

*Working for several websites including news agencies, businesses, portfolios etc. I have extensive experience in building WordPress websites for over 4 years now. I'm a philomath in technology and enthusiastic about exploring newer sides of it.*

## SKILLS

### WordPress Freelancing

*Since 2019, I've been building websites for people and businesses. As of now, I've worked on 20+ websites and still maintaining some of them,*

### Arduino

*I've also worked on some basic Arduino projects such as Internet controlled car, distance measuring device with data reporting to the cloud, and some IOT projects using Blynk app.*

### Raspberry Pi

*Explored a lot of things with the RPI 4. Worked around Rasbian OS to build low-cost webserver on which I used to host light web pages.*

### Snapchat AR

*I've also some experience with building snapchat lens.*

### Spark AR

*Built some Instagram filters using the Meta owned Spark AR software.*

### Google Local Guides

*I've volunteered by becoming a part of Google Local Guides.*

### Postman API

*Recently, I've started to learn postman API too.*

## SOME POINTS ABOUT ME

- WordPress
- Domain and Hosting provider
- Web3 enthusiast
- NFT collector
- Google maps local guide
