MSA
INTELLIGENT HEALTHCARE

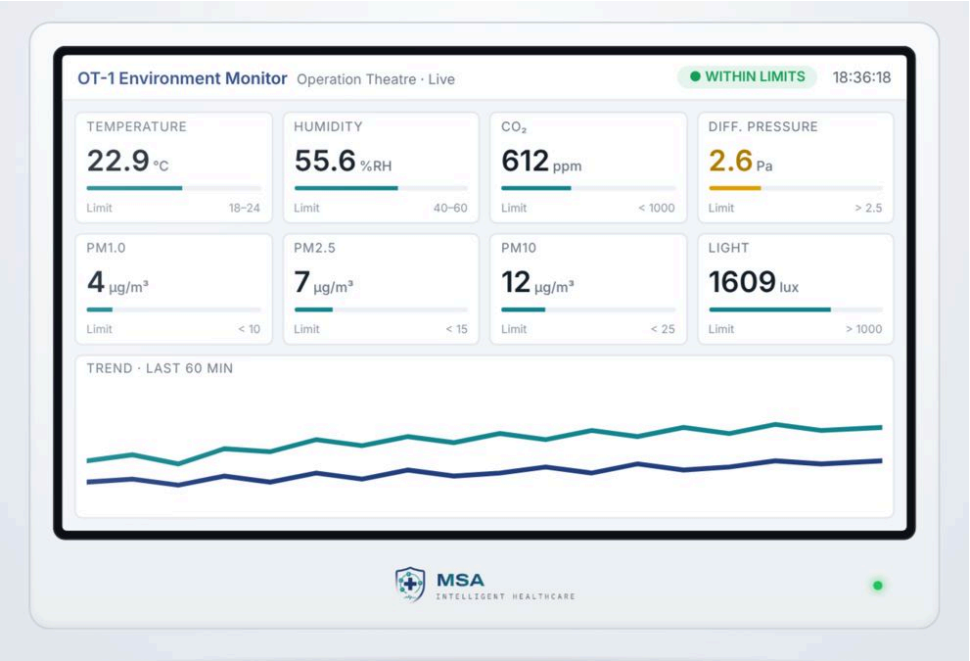
PRODUCT 01

Netra

WORKING PROTOTYPE

The OT and ICU environment monitor. It watches the room every minute, sounds an alarm, and keeps the record.



Concept render. Screen values are illustrative.

WHAT IT WATCHES

- Temperature
- Humidity
- CO2
- Differential pressure
- Particles (PM)
- Light

Monitor

Every minute, against your own limits.

Alarm

Built-in alarm when a limit is crossed.

Record

Continuous log, kept for audits.

Report

Ready for assessor review.

Battery backup keeps monitoring through a power cut. Provisional patent filed, September 2026.

PRODUCT 02

Kavach

COMING SOON

OT disinfection that shows its result: an infection percentage report from before and after.

THE BEFORE AND AFTER REPORT

BEFORE

[%]

Infection percentage measured before disinfection

→

AFTER

[%]

Infection percentage measured after disinfection

Placeholder values. Real figures will come from pilot testing.

Disinfects the OT

Planned to cover the whole theatre between cases.

Proves the result

A report the hospital can show to assessors and its own infection team.

Pairs with Netra

Netra shows the room's conditions. Kavach shows the infection result.

Price

To be announced. Pilot hospitals will be first.

Kavach is not yet available. Details here are plans and may change.

MSA
INTELLIGENT HEALTHCARE

Netra pricing: buy or rent, then add services.

Prices are per room, in rupees.

STEP 1: CHOOSE THE DEVICE

MSA Purchase

₹2,00,000

One-time. You own the device.
