New Computer Systems

On June 16th, we migrated to a new Point of Sale computer system that offers a variety of great benefits. However, we owe all our loyal customers a huge shout out of appreciation for your patience during our birthday and grand re-opening sales event. Many items and barcodes did not transfer as intended and we humbly apologize for any inconvenience experienced during your recent visit. Rest assured that we have been working diligently to quickly resolve the item scanning issues.

One benefit is that our new system automatically synchronizes your frequent buyer purchases with our customer loyalty program (no more scanning items twice).

Now you can choose when to redeem a frequent buyer reward: the new system does not apply the reward automatically. The Pawprints (points) that you earn on purchases have a one-year shelf life, but rewards no longer have to be redeemed within a 90 day period.

Another benefit is that our in-store and online inventory systems are completely in sync. If the item shows availability online, you can feel confident it will be ready for pickup or delivery.

New reward levels and double point opportunities will be introduced in the coming weeks. You can track your purchases, points, and rewards by downloading our custom Pawprints Reward Club app. Scan the QR code below for your specific device type.
