

Self Wash

INSTRUCTIONS

1. Pre-pay at the register.

Grab your apron! You have 30 minutes to complete your dog's wash.

2. Place your pup in the tub.

Use the provided slip lead to secure your dog. Use the ramp if your dog needs assistance entering the tub.

3. Turn on water and adjust the temperature if needed.

The water will not exceed 100 degrees Fahrenheit.

4. Shampoo and condition your pup.

Remember: once your pet is wet and slippery, they are suddenly faster and smarter than you!

5. Dry your dog using towels or our professional air dryer.

Use as many towels as needed! The air dryer is very loud and can be scary for some dogs.

6. Wipe ears with a cotton ball.

Ear cleaning solution is available for you to use.

7. Clean up your area.

Wipe water and place used towels in the hamper.

8. Shop for a treat for your good pup!

Ask us how you can take products home with you!

Keep your dog leashed at all times!
