DEVELOPMENTS

The team is buzzed with excitement as each department celebrates significant milestones achieved in the past month. Our dedicated team, who powered through reading week, has been the driving force behind this incredible progress.

Mechanical

The mechanical team hits a major win: they've wrapped up the rolling car deadline this month. Every essential piece needed to get the car moving – chassis, brakes, steering, suspension – is in the bag.

Electrical

The electrical team successfully assembled the battery pack and got the motor running for the first time this year. And what's even more impressive? They managed to pull it off in a lightning-fast two-week turnaround – talk about next-level efficiency!

Driverless

DV's been putting in the hours, meticulously packaging and organizing their electrical components, getting everything set for the car installation. It's all about the attention to detail as they gear up for this next phase.

SPONSOR

NTN Corporation

NTN Corporation, a leading bearing manufacturer, has revolutionized multiple industries with their top-notch bearings. Their components have turbocharged efficiency and reliability across various applications. As we celebrate our 25th year of partnership, we're sending a big thank you to NTN for their continuous support!

THIS MONTH IN A NUMBER

25 Years of Racing

UTFR is embarking on its 25th year of racing in FSAE and Formula Student competitions this season. We look forward to continuing our legacy of competition while striving for new heights!
