About Us

OUR VISION

Our vision is to be a leading and innovative company in the sector by offering world-class solutions to meet security and defense needs.

We aim to closely follow technological developments, continuously improve ourselves, and provide the highest level of service.

OUR MISSION

Our mission is to provide the most reliable, innovative and high-quality solutions in the field of civil and military security.

We work in a way that is sensitive to society and the environment by adopting the principles of honesty, transparency and satisfaction-oriented in our business processes.

By investing in the development of our employees, we aim to create a strong team spirit and offer the most appropriate solutions for needs.

OUR TARGETS

Satisfaction of Our Solution Partners and Stakeholders: Exceeding the expectations of our Solution Stakeholders, providing them with the best service and establishing long-term business relationships.

Innovation: Investing in R&D studies, creating the latest technologies and innovative solutions in the sector.

Sustainability: Managing our business processes in an environmentally sensitive manner and integrating the principle of sustainability into all our activities.

Team Development: Providing continuous training and development opportunities to develop the skills and careers of our solution partners and employees.

Global Presence: Growing internationally, becoming a global brand and representing our country in the best way.

ADLER Security and Defense Systems Industry and Trade Inc. aims to reach a high level of performance, quality and satisfaction by aiming at technological design, supply, project; commercial structure, information security and meeting the needs with knowledge and experience in accordance with the law and relevant legislation without compromising national and international standards and quality principles.

In order to reach the desired level in this regard;

- Product and technology quality
- R&D and innovation capability
- Strategic collaborations and partnerships
 - Operational efficiency
 - Marketing and sales force
 - International accessibility

We aim to become one of the important stakeholders of the sector in the fields of security, defense, infrastructure, construction and supply by reaching all the targets we have determined in the fields. We are rapidly progressing on our path with the slogan of producing appropriate solutions with quality, reliability and experience.
