---

## Summary

---

Passionate Software Engineer and student at Semarang State Polytechnic, specializing in full-stack web development. Proficient in PHP, JavaScript, and Python with a focus on building efficient, scalable applications. Fuelled by a relentless curiosity in cybersecurity, I integrate secure coding practices into every line of code I write to ensure robust user protection.

## Experience

---

### PT. Gracia Visi Pratama | Semarang

#### Frontend Developer Intern | 02/2025 - 03/2025

- Developed and maintained responsive user interfaces using Angular framework.
- Implemented dynamic and reusable UI components with Bootstrap for consistency and responsiveness.
- Collaborated with backend developers to integrate RESTful APIs and ensure seamless data rendering.
- Utilized version control tools like Git/Github for efficient code management.

### PT. INTERNET MULIA UNTUK NEGERI (NEXA) | Semarang

#### Network Intern | 05/2023 - 11/2025

- Assist with the installation of internet networks to ensure optimal performance
- Troubleshoot and resolve network issues efficiently
- Maintain and repair network devices to ensure continuous operation
- Identify and analyze network problems to provide effective solutions
- Provide technical support and assistance to customers or users

## Education

---
