Over all everything was good ...

Sport

Overall, it was very wonderful experience. Interactive sessions were quite useful in expanding the knowledge base. Teachers/ Professors took genuine efforts in imparting the best kind of education.

No Any

I think College management should provide their students best of the best edutional environment which helps every student to give their best performances.

Communication skill and soft skill

There is a only one problem in boys washroom sir. Please repair the boys washroom

Many students are not clear about what they are going to do in future I must say I was one of them because of my ignorance I was not able to take the opportunity to consult with my teachers about what should I do in the future and which course will be most suitable for me I was afraid that the teacher will not take me seriously and will tell me to go away as teachers are very busy themselves without our intervention I would like to ask our respectable college to provide a opportunity to students where they can clarify their doubts about their future and gain valuable advice from teachers and other faculty I sincerely request the college to actively work on this as because of myriad reason like nervousness, anxiety,fear the students are not able to take advantage of the most valuable resource in our college which is the valuable experience and wisdom of our teachers and faculty members which will benefit them endlessly in the future and make their future path less torturous.

Thanking you,
Nitesh Thakur.
