Process Manual for Slow and Advanced Learners

Faculty deals with different kind of students within the classroom. Some are intelligent who grasp fast while some are weak and learn very slowly. Therefore, it is required to determine the abilities of the students in the class. Based on the ability determined, some students need only guidance and some students need a hard work and regular attention. On the basis of their preceding exam performance, current subject performance and class observation, learning speed students can be classified in two groups; advanced learners and slow learners. Every student has different learning attitudes and learning habits. A faculty has to adapt a teaching methodology such that he/she may not lose the attention of the slow learners and turn off the advanced learners.

Objectives

The objective behind such identification of slow and advanced learners are-

1. To identify the factors affecting the student's performance.
2. To analyze them with respect to the institutional framework.
3. After identification and analysis, to provide a proper solution for improving their performance and build a successful career.
4. To provide a desirable and amicable solution both for the slow learners and advance learners to avoid any discrimination between them and they must take interest to reach up to a position in due course of time where both the group feel at par with each other.

Process to Identify Slow and Advanced Learners

All students of a particular batch should be assessed on following parameters:

Sr. No.	Assessment Criteria	weightage
Internal Assessment		
1	Mid Term Test/Class Test	10%
2	Assignments/ Class participation and responsiveness / General awareness / Attentiveness etc.	10%
3	Class Attendance	10%
External Assessment		
4	University/ Board Exam	70%

The student securing marks below 40% would be identified as **Slow Learners** and the student securing marks above 70 % would be identified as **Advanced Learners**.

Programs and activities for SlowLearners

In order to encourage and motivate slow learners, special attention is paid to them and following programs and activities are to be carried out

- Remedial Classes: conducted for both theory and practical sessions.
- Assignments and Solving University Question Papers: Provide solutions of questions papers from last 2 years
- Counseling Sessions: Assist students in their weak areas of performance and suggest improvements

- Personal attention: Providing special attention on non-academic parameters such as Communication Skill, Public Speaking, decide on Career Goals, and Managing Academics & Personality.

- Such students are given regular class tests in order to improve their performance in the university exam. Further, faculty members revise the tough topics as per the student's requirement and provide university question bank and discuss the way of presenting the answers in the exam to score marks.

All this is achieved by incorporating audio and visual materials in addition to their regular course. Special hints and techniques are provided to them. At the end of the mentoring, success stories of the mentoring process by the faculty mentors is documented

Programs and activities for Advanced Learners

In order to encourage and motivate advanced learners following activities and programs are to be followed.

- Advance learning assignments or tasks are assigned to advanced learners
- Encouragement to complete NPTEL/SWAYAM/COURSERA/ courses
- Encouragement to Participate in Seminars/Conferences/ Live Projects / Domain specific Entrepreneurial Skills / Start- Up etc.
- Providing platform to become the part of Industry sponsored Internship/Research Work.
- Advanced learners are given representation in college level committees.
- Encourage to participate in national level contests and events.
- Encourage to become member of professional bodies and organize technical/professional events, research oriented.

Department of Political Science

Bridge Course
(From 02nd August to 10th August 2023)
Report

Department of Political Science conducted a Bridge Course from 02nd August 2023 to 10th August 2023 on basic concepts of Political Science for B.A. 1st Semester Students.

To acknowledge the basic concepts of Political science to students, the department conducted the Bridge Course which include basic concepts of political science like Liberty, Freedom, Equality, Justice, Democracy, Liberalism, Rights, Constitution of India, International Relations etc. The brief information about the concept has been given to students. It is necessary for the students to introduce nature of the subject at entry level, so can students at least get some idea about the subject. Students provide Module for the subject's separately.

Daily one hours lecture was delivered. At the last, MCQ based examination was conducted on the Module/Syllabus which was held on 12th August 2023. The main purpose was to verify whether students at least got some knowledge about the subject or not.

A REPORT ON FIELD VISIT

Place of Field Visit : Sevagram (Wardha) and Vinoba Bhave Ashram (Paunar)

Date : 16/03/2024

Participation: Department of Sociology UG and PG Students

Department of Sociology organized field visit to 'Sevagram (Wardha) and Vinoba Bhave Ashram (Paunar)': A Social Project established by Mahatma Gandhi in 1936, at Wardha. Sevagram, previously known as Segaoon, was Gandhiji's home from April 1936 to August 1946. Bapu Kut, Gandhiji's hut at Sevagram, was the center of activities of Gandhiji. It was also witnessed to many historical moments of the freedom struggle of India. Gandhiji stayed from 1936 to 1948 at Sevagram Ashram and carried out all his activities from this ashram during that period.

In April 1936, Gandhiji established his residence in the village Shegaon which he renamed as Sevagram, which means 'village of service'. Gandhiji was 67 years old when he came to Sevagram. From then on, Sevagram has become an inspiring place. Many decisions on important national matters and movements were taken at Sevagram. It became the central place for a number of institutions for the nation building activities devised by Gandhiji to suit the inherent strength of this country.

Vinoba Bhave came to Wardha in 1921 to start a Satyagraha Ashram on the lines of one at Ahmedabad. Jamnalalji had constructed a bungalow at the bank of Dham River at Paunar (9 kms East of Wardha and 6 kms away from Sevagram) for occasional rest during the summer vacation. It was known as Lal Bungalow.

A ramdham Ashram is established by Acharya Vinoba Bhave in the year 1934 on the bank of river Dham in Paunar village five miles away from Wardha. Vinobaji longed for self-realization and left home in search of 'Brahma'. It was initiated by Acharya Vinoba Bhave and helped landless farmers in India. Mid landlords' machinations and peasant rebellions, leaders like Acharya Vinoba Bhave worked peacefully to resolve the issue of land concentration through the Bhoodan Movement.

This field visit was organized by department of Sociology under the able guidance of Prof. R. B. Burile, Head Dept. of Sociology and other two Professors of other colleges.

Subject – Submission of Utilization statement of Scholarship received for the academic session 2023-24

Ref- 1) Scholarship Sanction letter dated 3rd November 2023

Respected Sir,

We are extremely grateful for the selection of our college for awarding scholarship to our economically backward students from the last four years. This generous financial help proved to be great beneficial to our students to pursue their higher education in the field of commerce and management.

Sir, as per Reference we are in receipt of Scholarship cheque no 001719 dated 03 November 2023 of Rs 1,20,000/- for 12 needy students @ Rs 10000/- . Out of the total scholarship amount Rs 39682/- has been adjusted from the fees due from the students and remaining amount of Rs, 80318/- has been transferred to beneficiaries Bank Account by NEFT. The statement of stamped receipt showing distribution and acknowledgement from students is submitted for your kind information.

Kindly accept the same and oblige.

Thank you very much Sir for your generosity.

Yours Sincerely

(Dr. Gajanan Patil)

Principal

Annasaheb Gundewar College

1) Cancer induction-

- ☐ Cancer induction is the most significant long-term risk of exposure to low dose radiation.
- ☐ The major contributor to damage from radiation is through radiation changing a water molecule into a new form called a "free radical."
- ☐ Free radicals are highly chemically active and as such can have reactions with genetic molecules of the cell (i.e. with the DNA).
- ☐ It leads to mutation and cancer.

**Radiation doses, units and measurements-**

- International commission on radiation units and measurement (ICRU) has established special units for the measurement of radiation.

- Such units are used to define four quantities of radiation.

- ✓ Exposure
- ✓ Dose
- ✓ Dose equivalent
- ✓ Radioactivity

1) Exposure-

The term exposure refers to the measurement of ionization in air produced by X-rays.

2) Dose-

Dose can be defined as the amount of energy absorbed by a tissue.

3) Dose equivalent-

Different types of radiation have different effects on tissues.

Dose	SI unit	Old unit	Conversion factor
1) Exposure	C/kg air	Roentgen	1R = 2.58×10^{-4} C/kg
2) Absorbed dose	Gray (Gy)	rad	100rad = 1Gy
3) Equivalent dose	Sievert (Sv)	rem	100rem = 1Sv

**Summary-**

- ❑ Radiation is the emission or transmission of energy in the form of waves or particles through space or through a material medium.
- ❑ Radiation effects can be divided into two type's i.e. high dose and low dose.
- ❑ Low doses radiation damage the cells and spread out over long periods of time.
- ❑ Effects that appear after years, decades or generations are termed long term effects.
- ❑ Radioactive materials have a variety of important uses in medicine, industry, agriculture and sterilization, but if proper measures are not followed, ionizing radiation can cause tissue damage, cell death, genetic changes and cancer.
- ❑ Exposure to low dose radiation from CT Scans, X-ray, nuclear power plant accidents and atomic bombing causes long term radiation risk like leukemia, thyroid cancer, bone or blood disorders and cancer

2) Thyroid cancer-

- ☐ Exposure to radioactive Iodine-131 released from nuclear power plant accidents comes mainly from consuming contaminated water, milk or foods.
- ☐ Inside the body, Iodine-131 accumulates in the thyroid gland, which is an organ in the neck.
- ☐ Exposure to radioactive iodine may increase the risk of thyroid cancer many years later, especially for children and adolescents.

3) Nuclear power plant accidents-

- The radioactive isotopes released in nuclear power plant accidents include Iodine-131 and caesium-137.
- The most severe kinds of accidents, such as Chernobyl accident in 1986 & dangerous radioactive isotopes, such as Strontium-90 and Plutonium-239, may also be released.
- Exposure to radioactive iodine may increase the risk of thyroid cancer many years later, especially for children and adolescents.
- Approximately, 6.5 million residents of the contaminated areas surrounding Chernobyl received much lower amounts of radiation.

NOTICE

Annasaheb Gundewar College

Katol Road, Nagpur

Department Of Science And Technology

All the teaching staff members and Students of B.Sc are hereby informed that Dept. Of Science is conducting Educational Visit to **Raman Science Center** on **21st feb 2024** between **9.00a.m. - 4.00p.m.**

Those who are interested have to give names before the given date to Prof. Prajakta Zode & Prof. Shivane Meshram latest by 20th Feb 2024.

Dr. P. D. Deshmukh

Principal
Annasaheb Gundewar College
Katol Road, Nagpur.

The Principal

Annasaheb Gundewar College

Nagpur

Subject - Application for Permission to go on Study Tour to Raman Science Center.

Respected Sir,

We, the Teacher of Dept. of Science are planning to visit Raman Science Center on 21st feb 2024. There will be approximate ~~20-22~~ 33-36 students participating in study tour.

Therefore, we request you to kindly grant us permission to visit Raman Science Center.

Thank You.

Teachers
