M.A. (Political Science)

Programme Outcomes

The outcomes the programme provides in common with Master's Programs in the Faculty of Arts, Commerce and Law are as follows:

1. The learner develops the ability to use critical, analytical, and reflective thinking and reasoning
2. The learner acquires the ability to reflect on social and ethical responsibilities in his/her professional life.
3. The learner gains experience and confidence in the dissemination of project/research outputs
4. The learner acquires the competence to work responsibly and creatively as an individual or as a member or leader of a team and in multidisciplinary environments.
5. He /She learns to communicate effectively by oral, written, graphical and technological means and have competency in English.
6. On completion the learner can independently research and acquire information, and develop appreciation of the need for continuously learning and updating..
7. The learner becomes able to assess the impact of the economic, social, and political environment from a global, national and regional level.
8. The learner gets to know how to access written and visual, primary and secondary sources of information, interpret concepts and data from a variety of sources in developing disciplinary and interdisciplinary analyses.

In particular, this program offers a comprehensive and up-to-date review of the major fields of Political Science and provides the students with a rigorous conceptual framework, basic analytical tools and sound methodological training in the discipline. The program covers the major fields of Political Science (Comparative Politics, International Relations, Political Theory, Public Administration and Indian Govt. and Politics) and offers a rich set of specialization possibilities.

The programme is formulated following CBCS structure with a combination of disciplinary core courses and elective courses, Students at each semester get the choice to select the area of their choice. therefore from the first semester itself each student gets the opportunity to specialize in a particular domain

The programme provides 64 credits spread over four semesters, with the foundational courses kept the first semester and more specialized areas in the final semester.

Political Sciences as 'Master Science' had spawned International Relations, later emerging as an autonomous discipline, Comparative Politics later shifting to Area Studies and Public Administration which again became an autonomous discipline though taking a turn to management and policy studies. This Masters programme provides a broad view of this disciplinary development.

1. The programme provides a balanced treatment between the Western and the Indian political thought and theory.
2. The programme provides a balanced treatment to both empirical and normative aspects of the discipline of Political Science. The students get a balanced footing on concepts and methodology as the programme has made Research Methodology and Field Research compulsory.
3. The programme draws inputs from allied disciplines and empowers the students with an interdisciplinary focus and understanding.
4. The Programme draws on research thrust areas of the Department like India's state and sub-state politics, public policy, India's foreign policy, women and politics and social movements, to name a few.
5. The programme supports problem solving skills, thinking, creativity through assignments, project work, both individual and group based.
6. The programme empowers and motivates students for research in Political Science and related fields.
7. Since the Department has its own dedicated library students get enough opportunity to prepare for competitive examinations.

PROGRAM OUTCOME

Faculties of Commerce & Management

B.Com

B.B.A.

B.C.C.A.

M.Com

Course Outcome

Class: B.Com. Part- I, Semester – I

Subject / Course: Business Economics- I

Unit No. 1st: Nature & Scope of Business Economics

1. To understand the meaning & definition of Economics
2. To understand the meaning & definition of Business Economics
3. To know the subject matter & applicability of Business Economics
4. To know the nature & types of business decisions
5. To understand the branches of Economics & its merits & demerits

Unit No. 2nd: Theory of Consumption

1. To understand the meaning, nature & types of demand
2. To analyze the law of demand
3. To know the concept of indifference curve & its properties, importance
4. To analyze the concept of elasticity of demand & its types
5. To recognize the factors influencing demand & elasticity of demand
6. To appreciate the concept of demand forecasting & its methods

Unit No. 3rd: Theory of Production

1. To understand the concept of production & production function.
2. To know the behavior of the input & output in the short run & long run
3. To Analyze the production function in Short run & Long run
4. To understand the economies & diseconomies of increasing scale of production

Unit No. 4th: Theory of Cost & Revenue

1. To understand the concept of cost & its various types
2. To differentiate the various types of cost
3. To understand the concept of revenue & its various types
4. To analyze the behavior of various costs in short run & long run
5. To analyze the behavior of various types of revenue in short run & long run
6. To analyze the relationship between various types of revenue.

Course Outcome

Class: B.Com. Part- I, Semester – II

Subject / Course: Business Economics- II

Unit No. 1st: Market Structure

1. To understand the meaning of market, its structures & classifications
2. To know the term 'Firm' & 'Industry'
3. To differentiate between 'Firm' & 'Industry'
4. To analyze the various methods of pricing of products

Unit No. 2nd: Perfect & Imperfect Markets

1. To know the meaning of perfect competition market, monopoly competition market & monopolistic competition market
2. To appreciate the features of perfect competition market, monopoly competition market & monopolistic competition market.
3. To analyze the price determination under perfect competition market, monopoly competition market & monopolistic market
4. To analyze the output determination under perfect competition market, monopoly competition market & monopolistic market.
5. To know the concept of price discrimination & its various types.

Unit No. 3rd: Theories of Distribution

1. To understand and analyze the factors of production & its rewards
2. To differentiate between various factors of production – Rent, Wages, Interest & Profit
3. To know the concept of Theories of Distribution or Theories of factor pricing.
4. To understand & analyze the traditional & modern theories of Distributions or factor pricing.
5. To understand, analyze and appreciate the theories of Rent – The Ricardian Theory of Rent, Modern Theory of Rent, Concept of Quasi Rent
6. To understand, analyze and appreciate the theories of wages – Marginal Productivity Theory of Wages with criticisms
7. To understand, analyze and appreciate the theories of Interest – Loanable Fund Theory of Interest, Liquidity Preference Theory of Interest
8. To know the various concept of profits
9. To understand, analyze and appreciate the theories of Profit – Innovation Theory of Profit, Dynamic Theory of Profit

Unit No. 4th: Business Cycles & National Income

1. To know the concept of Business Cycles & its features
2. To appreciate the various phases of Business Cycles
3. To understand & analyze the causes of Business Cycles

4. To understand & analyze the remedies of Business Cycles
5. To understand the concept of National income & its various types
6. To analyze the various methods of measuring National Income
7. To understand the difficulties in National Income Accounting.

Course Outcome

Class: M.Com. (Prof.) Semester – 1st

Subject: Advanced Auditing & Income Tax

Unit No. 1st: Introduction to Auditing

1. To understand the concept & history of Auditing
2. To know the objects & importance of Auditing
3. To understand the classification of expenditure & rules determining type of expenditure

Unit No. 2nd: Classification of Audit

1. To understand the basis of Classification of Audit
2. To know the merits, demerits & applicability of various types of Audit
3. To appreciate the nature, features and the method of conducting different types of audit
4. To understand the procedure of conducting the audit
5. To differentiate between different similar audit types
6. To know the concept, features, content of Audit working papers
7. To know the concept, features, content of Preparation for Audit
8. To study the concept of Audit Programme

Unit No. 3rd: Audit Sampling

1. To study the concept of Audit Sampling
2. To study the need of Audit Sampling
3. Differentiate between Audit in depth Vs. test Checking methods of selection of samples of Audit
4. To know the procedure of Audit Sampling

Unit No. 4th: Audit of Financial Statements

1. To study the concept of financial statement & its importance
2. To understand the general rules of Auditing the financial statements
3. To analyze the profit & loss account
4. To understand the procedure of auditing the various items in profit & Loss account
5. To analyze the Balance Sheet
6. To understand the procedure of auditing the various items in Balance Sheet

Unit No. 5th: Introduction to Income Tax & Computation of income from Salary

1. To Study the basic concepts in income tax
2. To understand the various income exempt from tax
3. To differentiate between revenue & capital expenditure
4. To know the Residential status of an assessee
5. To understand & analyze the computation of income from salary

Course Outcome

Class: M.Com. (Prof.) Semester – 2nd

Subject: Advanced Auditing & Income Tax

Unit No. 1st: Vouching

1. To know the required qualification for an Auditor
2. To understand the procedure of Appointment of Auditor
3. To know the procedure of removal of an Auditor
4. To understand the special qualities of auditor
5. To acquaint the concept of vouching
6. To appreciate the need and importance of vouching
7. To understand the general practice in vouching
8. To know the methods to be adopted for vouching of revenue & capital expenditure

Unit No. 2nd Vouching of Ledgers

1. To know the procedure of vouching of various personal ledgers
2. To understand the procedure of various impersonal ledgers

Unit No. 3rd: Valuation and verification of assets & liabilities

1. To appreciate the valuation & verification of assets
2. To appreciate the valuation & verification of liabilities

Unit No. 4th: Investigation

1. To study the concept of investigation
2. To appreciate the importance of investigation
3. To make able to differentiate between Audit & Investigation
4. To understand the procedure of investigation in different cases like admission in firm, purchase of running business, cases of tax evasion etc

Unit No. 5th: Income Tax

1. To study the computation of income from house property
2. To study the chargeability of income from house property
3. To study the different sections related to deductions (80C, 80G & 80L etc)

Outcomes / Objectives of the Subjects

Sr. No.	Name of Subject	Outcomes / Objectives
1.	Business Organisation	<ol style="list-style-type: none"> 1. To understand the concept of business and its nature & scope 2. To know the various forms of business organization & how they work. 3. To enable students to differentiate the private company & public company & its functioning. 4. To make able the students to know the concept of organization & its various forms. 5. To make capable to the students to form business organization with the help of various principles of organization. 6. To gain insight into the various factors / constituents affecting business organization. 7. To make aware the student to know the term chairman, its duties and authority.
2.	Business Management	<ol style="list-style-type: none"> 1. To acquaint the students of commerce faculty about the term management & its scope & significance. 2. To know the various functions to be performed by the management. 3. To understand the process of management. 4. To make aware the concept of planning & its nature & characteristics. 5. To get deep insight into the various types & components of planning. 6. To acquire the skill of Decision-Making in solving business problems or day-to-day problems. 7. To enable the students to acquire the knowledge of traditional & modern techniques of Decision-making & how it is used in business organization. 8. The students shall get the knowledge of the quantitative methods of credit control along with the qualitative methods. The students will be able to differentiate between Cash Reserve Ratio, Statutory Liquidity Ratio, Repo Rate,
5.	Indian Economy – I	<ol style="list-style-type: none"> To provide the knowledge of the Indian Economy, its nature & characteristics. The students will be able to know the term economic planning, its characteristics, objectives & strategies. To know the new concept of NITI Aayog & differences between NITI Aayog and Planning Commission. The students will get the knowledge of the natural resources & infrastructural resources to make the economic growth & development. The students will differentiate between economic growth and economic development. The students will know the characteristics of developing economy & transportation system in India. The students will be acquaint with the India's population size & growth trends.

		<ol style="list-style-type: none"> 8. The students will understand the causes, remedies of population explosion & India's population policy. 9. The students will get the deep insight in to the structure of unemployment in India and its trends. 10. To make able to know the different sources of public / government revenue. 11. To get acquaint with the concept of public expenditure & public debts and various classifications of public expenditure & public debts.
6.	Indian Economy – II	<ol style="list-style-type: none"> 1. The students will know the nature & role of agricultural sector in Indian economy. 2. The students will analyze the cropping pattern & determining factors of cropping pattern. 3. The students will acquire the knowledge of Agriculture finance & agriculture marketing & their various aspects. 4. The concept of green revolution can be cleared by the students. 5. The knowledge of Indian agricultural price policy can be gained by the students. 6. The students will get the knowledge of the Indian Industrial Policy, 1991. 7. The concept of small & cottage industries will be understood & differentiated by the students. 8. The students will know the various problems of small, cottage, and public sector industries & remedies to solve the problems. 9. The methods of privatization of public sector industries can be understood by the students. 10. The students will get deep insight in to the Indian service sectors & India's international trade.

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Session: 2020-2021

B.Com. 1st Semester

Group – I: Computer Applications

1T8.1: Fundamental of Information Technology (FIT)

Course Outcomes:

After successfully completing this subject, a student will be able to:

- Develop interest in using computers for professional work
- Develop skills and interest in programming
- Formulate opinions about the impact of computers on society
- Know and use different number systems and the basics of programming

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Syllabus

Session: 2020-2021

B.Com. II Semester Vocational Course

Group – I: Computer Applications

2T8.1: Software Packages (SP)

Course Outcomes:

Upon successful completion of the program, you should have the skills to:

- Work effectively with a range of current, standard, Office Productivity software applications.
- Evaluate, select and use office productivity software appropriate to a given situation.
- Apply basic adult learning and assessment principles in the design, development, and presentation of material produced by office productivity applications.
- Demonstrate employability skills and a commitment to professionalism.
- Maintain quality assurance through critically evaluating procedures and results.

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Syllabus

Session: 2020-2021

B.Com. 3rd Semester

Group – I : Computer Applications

3T8.1 : Application Software

Course Outcomes:

After successfully completing this subject, a student will be able to:

- Demonstrate the basic technicalities of creating Slide Sorter & Printing for office use.
- Demonstrate the basic technicalities of creating a PowerPoint presentation.
- Demonstrate the practices in data & files management
- To maintain huge amount of data in Access
- To Maintain Report of large amount of data in Access.

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Syllabus

Session: 2020-2021

B.Com. IV Semester (Vocational)

Group – I : Computer Applications

4T8.1 : Computerized Accounting (C/A)Tally Software

Course Outcomes:

- After successfully qualifying practical examination, students will be awarded degree to work with well-known accounting software i.e. Tally ERP.9
- Student will do by their own create company, enter accounting voucher entries including advance voucher entries, do reconcile bank statement, do accrual adjustments, and also print financial statements, etc. in Tally ERP.9 software
- Students do possess required skill and can also be employed as Tally data entry operator.

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Syllabus

Session: 2020-2021

B.Com. 5th Semester

Group – I: Computer Applications

5T8.1: Web Designing using HTML (WD)

Course Outcomes:

After successfully completing this subject, a student will be able to:

- Use the HTML programming language.
- Resolves written HTML codes.
- Runs the page he/she has designed using HTML codes.
- Be able to use the Design Programs.
- Uses Microsoft Expression Web 4 programme.
- Designs site and page via Microsoft Expression Web 4 programme.

Uses the program Web Page Maker.

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Syllabus

Session: 2020-2021

B.Com. 6th Semester

Group – I: Computer Applications

6T8.1: Introduction to Visual Basic (IVB)

Course Outcomes:

The student will use visual basic to build windows applications using structured and object-based programming techniques

- Design, formulate, and construct applications with VB
- Integrate variables and constants into calculations applying VB
- Assemble multiple forms, modules, and menus into working VB solutions
- Create VB programs using multiple array techniques

RASHTRASANT TUKDOJI MAHARAJ NAGPUR UNIVERSITY, NAGPUR

Session: 2020-2021

Bachelor of Business Administration 2nd Semester

BB 5 – Principles of Marketing Management

Course Outcomes:

After completion of this course, the students will be able to

- Understand the concepts related to Business.
- Demonstrate the roles, skills and functions of management.
- Analyze effective application of PPM knowledge to diagnose and solve organizational problems and develop optimal managerial decisions.
- Understand the complexities associated with management of human resources in the organizations and integrate the learning in handling these complexities.

Unit No. 4th: Business Cycles & National Income

1. To know the concept of Business Cycles & its features
2. To appreciate the various phases of Business Cycles
3. To understand & analyze the causes of Business Cycles
4. To understand & analyze the remedies of Business Cycles
5. To understand the concept of National income & its various types
6. To analyze the various methods of measuring National Income
7. To understand the difficulties in National Income Accounting.

Course Outcome

Class: B.Com. Part- I, Semester – II

Subject / Course: Business Economics- II

Unit No. 1st: Market Structure

1. To understand the meaning of market, its structures & classifications
2. To know the term 'Firm' & 'Industry'
3. To differentiate between 'Firm' & 'Industry'
4. To analyze the various methods of pricing of products

Unit No. 2nd: Perfect & Imperfect Markets

1. To know the meaning of perfect competition market, monopoly competition market & monopolistic competition market
2. To appreciate the features of perfect competition market, monopoly competition market & monopolistic competition market.
3. To analyze the price determination under perfect competition market, monopoly competition market & monopolistic market
4. To analyze the output determination under perfect competition market, monopoly competition market & monopolistic market.
5. To know the concept of price discrimination & its various types.

Unit No. 3rd: Theories of Distribution

1. To understand and analyze the factors of production & its rewards
2. To differentiate between various factors of production – Rent, Wages, Interest & Profit
3. To know the concept of Theories of Distribution or Theories of factor pricing.
4. To understand & analyze the traditional & modern theories of Distributions or factor pricing.
5. To understand, analyze and appreciate the theories of Rent – The Ricardian Theory of Rent, Modern Theory of Rent, Concept of Quasi Rent
6. To understand, analyze and appreciate the theories of wages – Marginal Productivity Theory of Wages with criticisms
7. To understand, analyze and appreciate the theories of Interest – Loanable Fund Theory of Interest, Liquidity Preference Theory of Interest
8. To know the various concept of profits
9. To understand, analyze and appreciate the theories of Profit – Innovation Theory of Profit, Dynamic Theory of Profit

Subject wise course outcomes

Odd And Even semester

B.Com. 1st sem, Subject : Business Economics

- 1] students would learn the basics of subject matter & applicability of Business Economics
- 2] nature & types of business Economics
- 3] The branches of Economics & its merits & demerits
- 4] To analyze the law of demand.
- 5] concept of indifference curve & its properties, importance.
- 6] Concept of production & production function.
- 7] Various types of cost.
- 8] The behaviour of various types of revenue.

B.Com. 3rd sem, Subject : Business Communication & Management

- 1] Students will explore the foundation of business communication
- 2] Develops business written skills
- 3] Applying clear communication principles to written communication
- 4] Improve normal business correspondence.
- 5] Write more effective reports.

B.Com. 5th sem, Subject : Business Finance - I

- 1] meaning, nature, significance, objects & scope of business finance.
- 2] sources of business finance.
- 3] write project planning & project report.

- 5] Concept of Leverages, its operating & financial Leverages
- 6] To understand the management of working capital.

B.Com. 5th sem, subject : Marketing Management

- 1] Students would learn the basics of various market.
- 2] Concept of Traditional and Modern Marketing
- 3] Various types of market.
- 4] Develops Market skills
- 5] Sales services & its role in modern business
- 6] To analyze Advertising, Direct Marketing, E-marketing

B.Com. 2nd semester

subject : Business Economics - II

- Students would classify market structure.
- Students will be able to firms & Industry
- To Develop the understanding of the concept of Perfect & Imperfect Competition markets.
- To analyze theories of Distribution.
- To understand Business cycle.
- To analyze National Income.

B.Com. 4th Sem

Subject : Skill Development

- Students would learn the Basis of Personality
- Write various types of skill
- To analyze Communication skill and Personality Development.
- Various Techniques in Personality Development
Self confidence, Time management, Self-reflective, Meditation,

B.com. 6th semester.

Subject: Advanced Statistics

Session-

- 1] Students will be able to analyze the correlation using various types of correlation.
 - 2] Prepare Karl Pearson's coefficient of correlation in Bivariate Frequency table.
 - 3] To analyze. Interpreting of r Rank Correlation method.
 - 4] Students can prepare. Line of Regression, Equation, Coefficient of regression for a Bivariate Frequency Table.
 - 5] Students should be able to prepare. Index Number.
 - 6] Prepare. Time series analysis
-

B.com. 5th sem

Subject: Management Process

- 1] To facilitate students' understanding of their own managerial skills.
 - 2] To improve communication skills
 - 3] To learn from the Management experience of others.
-

Subjects outcomes

Subject : Advanced Management Accounting

Class : M.Com. IIIrd Semester

Outcomes

- * Evaluate the effectiveness of alternative management accounting techniques and to apply them to organisational & management practices
- * Appraise current management accounting techniques & practices in their organisational context. Appreciate the organisational & social & environment context of management accounting
