

Print: Manufacturing sMart

One-sixth page sMart ads are a great way to promote your webinars, online videos, brochures, white papers, case studies and other special promotions. Unlike the old-fashioned “classified” section, these value-priced sMart ads are larger and higher profile. And best of all, they’ll never be buried in the back of the magazine.

Pricing

Manufacturing sMart ads start at \$645. Of course, we offer significant discounts (up to 50%) for advertisers who schedule a program with us. For details, contact Katie Mulqueen, mulqueen@agma.org.

Sizes

sMart ads measure 2 1/4 inches wide and 4 3/4 inches tall. They fit six to a page. This configuration is ideal for promoting industry resources and any time you need more space from your limited budget. One-sixth page ads can be combined together to make larger ads at a lower cost than run-of-book.
