

**THE GEAR INDUSTRY'S INFORMATION SOURCE**  
[www.geartechology.com](http://www.geartechology.com)**GT Videos**

The Gleason Phoenix 280C/280CX Bevel Gear Cutting Machine allows users to reduce cycle times by as much as 35% on the production of bevel gears and pinions up to 280 mm in diameter. See a demonstration video of this and other machine tools on the *Gear Technology* homepage at [www.geartechology.com](http://www.geartechology.com).

**LINKEDIN**

The THORS Academy Gears Knowledge Center offers a complete overview and understanding of metallic gears. Users learn the different gears available and their classifications based on their relative orientation of the axes of rotation, how they're manufactured, and the advantages and disadvantages of using each type. For more information on the Gears Knowledge Center visit [www.thors.com](http://www.thors.com).

**IMTS 2014**

*Gear Technology* will continue to feature the latest product and industry news items related to IMTS 2014 taking place September 8-13 at McCormick Place in Chicago. All the new technologies, products and can't miss events will be available on our website as well as Twitter and LinkedIn.

**Back to Basics**

Looking for a good article on gear fundamentals? The *Gear Technology* Articles Archive can be accessed by typing "basics" into the search box on the *Gear Technology* homepage.
