

The Unofficial Guide to Gear Expo 2007

October 7-10, 2007
Cobo Conference/Exhibition Center
Detroit, MI

ALPHABETICAL LIST OF EXHIBITORS

See page 33 for these listings arranged by booth number. All listings current as of August 8, 2007. See www.gearexpo.com or www.geartechnology.com for updates.

Exhibitor	Booth Number
ABA-PGT Inc.	737
Acedes Gear Tools USA	314
ADF Systems Ltd.	463
Advanced Nitriding Solutions LLC	717
AGMA/AGMA Foundation	400
ALD-Holcroft	643
American Bearing Manufacturers Association	711
American Metal Treating Co.	409
American Stress Technologies	433
American Wind Energy Association	704
Ancon Gear & Instrument Corp.	614
Ann Arbor Machine Gear Technologies	562
Applied Process Inc.	548
Arrow Gear Co.	472
Ash Gear & Supply Corp.	645
B&R Machine & Gear Corp.	508
Barit International Corp.	542
Bevel Gears India Pvt. Ltd.	656
Bodycote Thermal Processing Inc.	568
Broach Masters/Universal Gear Co.	544
Broaching Machine Specialties Co.	435
Cadillac Machinery Co. Inc.	210

Canton Drop Forge	721
Capstan Atlantic	448
Carraro Argentina	564
Chamfermatic Inc.	469
Cincinnati Gearing Systems	230
Clifford-Jacobs Forging Co.	515
Colonial Tool Group Inc.	600
Comtorgage Corp.	405
Cornell Forge	615
Creative Automation Inc.	407
Custom Gear & Machine Inc.	401
Dae Seong Gear Manufacturing Co.	346
Delta Research Corp.	675
DixiTech CNC	648
Dr. Kaiser/S.L. Munson & Company	630
Dragon Cutting Tools	142
Drake Manufacturing Inc.	468
DSM Engineering Plastics	547
Dupont	514
Eaton Steel Bar Co.	749
ECM-USA Inc.	417
Eldec Induction USA	445
Eltro Services Inc.	446

OLS Inc.	652
Omax Corp.	354
Osborn International	348
PDM Engineering Pvt. Ltd.	722

CONTROL OVER EACH CRITICAL PROCESS

ALLOWS US TO MEET YOUR EXACTING STANDARDS – AND OURS.

Let our team of highly skilled employee-owners use the latest technologies, processes, and equipment to guide your specifications through the entire manufacturing process.

HEAT TREAT

With a 10,000-square-foot expansion of our heat treating facility, Overton Gear provides unrivaled capacity and capability to heat treat gears up to 90" in diameter. Our newest additions include two state-of-the-art carburizing systems that employ the latest U.S. and European technologies, along with an 84-inch quench press – possibly the largest in the world.

GRINDING

We produce custom Spur, Helical, and Bevel Gears that deliver on all of your performance requirements.

GEAR INSPECTION

Trained technical staff using the best equipment available ensures each gear meets your quality standards.

Next Generation! **New Neidlein Face Drivers.**

**From the inventors
of the mechanical
face driver...**

- Now even tighter tolerances for improved runout and durability. No other face driver is manufactured to this precision!
- New springs for even longer life
- Special applications, hard turning, grinding, HEAVY cuts – let us prove it!

Next Generation! **New Neidlein Ultra Live Centers.**

**Industry's best
performance and
run-out. Period.**

- STILL completely sealed, now with new endcap that adds further protection against chips, coolant, and grinding swarf
- New end cap placement improves tooling clearance
- Available in carbide or half carbide
- Industry leading TIR down to .00008" (or +/- .00004" the way our competitors do the math)

American Broach & Machine Co. is to offer sales, tech support, service and engineering for these world class gear grinding machines in North America.

Ingersoll **S-MAX** line

Engineered Specials

With the super strength & productivity of "S-Max"

- Complex, one-of-a-kind forms are possible
- Using the latest grades and geometries available
- Application concepts to match machine tool to appropriate tool design
- Extended tool life and performance with S-MAX sub-micron grade IN2005
- Global application support
- Constantly upgrading traditional tool designs to the latest efficiency

ABA-PGT spells "High Visibility Developer" and "Invisible Supplier"

ABA-PGT is the innovator in plastic gearing and automated injection molding. If your product contains gearing, we can design your gear train or fine-tune your design.

Our gears are always turning

We build Class 101 production molds and will make high precision prototype parts in 7 days or less
