Close the Black Hole of Downtime

"What a fantastic bit of kit the GE20A hobber is having run trouble free and 500,000 parts since installation."
— Ken Manners CEO, SP Metal Forging, South Africa

Downtime is a black hole that impairs productivity, kills the bottom line and simply shouldn't happen due to breakdowns. With a philosophy of continuous process improvement, in conjunction with an active reliability and maintainability program, Mitsubishi's gear machine products deliver best in the business quality and predictable production. Experience perfect production systems by visiting www.mitsubishigearcenter.com or contact sales 248-669-6136.
