# MAXXOS Mandrel

The hexagonal, super-strong mandrel

- I.D. clamping mandrel for clamping diameter 18 mm to 100 mm, in stock
- High transferable torques and holding forces
- Reduced tool wear through high rigidity
- Concentric precision  $\leq 0.01$  mm / 0.007 mm possible
- Concentric precision  $\leq 0.002$  mm possible upon request
- Resistant to contamination due to its hexagonal pyramid shape

## WE ARE A LITTLE EDGY.....

When it comes to your productivity

Gear manufacturers need tools returned quickly. We sharpen your perishable assets to meet or surpass original sharpening specifications... *rapidly*. That is what we do.

Enabling our customers to continually cut teeth since 1999.

- HOB SHARPENING
- SKIVE CUTTER SHARPENING
- COME SEE OUR SKIVE CUTTER SHARPENING MACHINE AT MPT 2019

## Innovative Gear & Spline Measurement

- ✓ Gages
- ✓ Master gears
- ✓ Double flank gear check
- ✓ Shaft measurement

- ✓ DAkkS-Calibration
- ✓ VDA-5 Certificate
- ✓ Wear measurement
- ✓ Cause Analysis

- ✓ Individual design
- ✓ Stable instruments for the shop floor use
- ✓ From a single source

- ✓ Support and calculation
- ✓ Seminars
- ✓ Literature
- ✓ Software

pure  
perfection

# ASK-THE-EXPERT LIVE!

ASK the  
EXPERT LIVE  
is coming to  
MPT Expo 2019  
in Detroit, MI.

This is your chance to have your questions answered in person by our live panel of experts.

**Gear Manufacturing, Tuesday, Oct 15, 10:30 a.m.**

**Gear Design, Tuesday, Oct 15, 2:30 p.m.**

**Lubrication, Wednesday, Oct 16, 10:30 a.m.**

**Bearings, Wednesday, Oct 16, 2:30 p.m.**

Can't wait? Submit your question now!

Send it by e-mail to Senior Editor Jack McGuinn

([jmcguinn@geartechnology.com](mailto:jmcguinn@geartechnology.com)) and we'll submit it to our experts.

# ZE26C

Gear Grinding Machine

The Mitsubishi ZE26C Gear Grinding Machine:  
**Precision Gears for Precision Systems**

**Optimized** for Electric Vehicles & Robotics

**Greater** Structural Rigidity

**Shorter** Non-cutting Time

**Lower** Running Costs

**Smarter** Industrial IoT remote monitoring - DIASCOPE

To learn more about how the ZE26C has been optimized for the evolving needs of the industry, visit [www.mitsubishigearcenter.com](http://www.mitsubishigearcenter.com) or contact sales at 248-669-6136.

## HIGH PRESSURE QUENCH VACUUM CARBURIZING FURNACES

### IQ SERIES

Get fast, forceful gas cooling with Solar Manufacturing's IQ series of vacuum carburizing furnaces. It's high performance internal quench system with direct-exit, sliding radiation baffles is the least restricted gas flow path on the market for superior hardening at quench pressures up to 20 bar.

Give us a call to learn more about our vacuum furnace ingenuity.
