

About This Directory

The 2014 *Gear Technology* Buyers Guide was compiled to provide you with a handy resource containing the contact information for significant suppliers of machinery, tooling, supplies and services used in gear manufacturing.

Cutting Tools.....	Page 36
Gear Blanks & Raw Materials.....	Page 37
Gear Machines.....	Page 38
Grinding Wheels & Abrasive Tools.....	Page 39
Heat Treating Equipment.....	Page 40
Heat Treating Services.....	Page 41
Inspection Equipment.....	Page 42
Lubricants.....	Page 44
Machine Tools.....	Page 44
Resources.....	Page 46
Services.....	Page 46
Software.....	Page 48
Used Machinery.....	Page 49
Workholding & Toolholding.....	Page 49
A to Z Company Index.....	Page 54
Gears and Power Transmission Components.....	Page 72

Bold Listings throughout the Buyers Guide indicate that a company has an advertisement in this issue of *Gear Technology*.

But Wait! Where are the Gear Manufacturers Listed?

If you are looking for suppliers of gears, splines, sprockets, gear drives or other power transmission components, see our listing of this issue's power transmission component advertisers on page 51. In addition, you will find our comprehensive directory in the December 2013 issue of *Power Transmission Engineering*

as well as in our online directory at www.powertransmission.com.

Handy Online Resources

The Gear Industry Buyers Guide – The listings printed here are just the basics. For a more comprehensive directory of products and services, please visit our website, where you'll find each of the categories here broken down into sub-categories: www.geartechology.com/dir/

The Power Transmission Engineering Buyers Guide – The most comprehensive online directory of suppliers of gears, bearings, motors, clutches, couplings, gear drives and other mechanical power transmission components, broken down into sub-category by type of product manufactured: www.powertransmission.com/directory/

How to Get Listed in the Buyers Guide

Although every effort has been made to ensure that this Buyers Guide is as comprehensive, complete and accurate as possible, some companies may have been inadvertently omitted. If you'd like to add your company to the directory, we welcome you. Please visit www.geartechology.com/getlisted.php to fill out a short form with your company information and Buyers Guide categories. These listings will appear online at www.geartechology.com, and those listed online will automatically appear in next year's printed Buyers Guide

ATLAS®

From system integration to energy efficiency, Ipsen's batch atmosphere ATLAS® furnace has the answers. This single-chain furnace model integrates into existing lines with ease. The ATLAS also features:

- Intuitive, user-friendly Carb-o-Prof® control software
- Recon® Burners that increase thermal efficiency up to 75%
- A reduced footprint due to the peripheral equipment's compact assembly
- Consistent uniformity with the addition of an optional ceramic muffle

Visit IpsenUSA.com/ATLAS to learn more.

**BETTER PARTS THE
FIRST TIME...
EVERY TIME.**

Applied Process Inc. clocks the competition.

With so much riding on your parts, you simply don't have time for inferior-performing solutions. As the industry leader in providing austempered ductile iron (ADI), Applied Process develops parts that meet the most stringent industry standards...time and time again. ADI parts are stronger, lighter, quieter, more uniform and have greater wear-resistance—providing increased performance with decreased production costs. It's time to put the power of Applied Process to work for you.

Global Leader in Austempering

IMTS aftermath

Unprecedented introduction success
of our newest machine :

ngc 5 Axis Tool Grinder

- The ultimate hob sharpener
- Smallest foot print, largest work envelope
- Full 5 axis CNC tool grinder
- 17 Hp direct drive grinding motor
- HSK50 spindle up to 6 wheels
- Large or small, straight or spiral hobs,
shaper cutters or stick blades

The universal grinder for small
large and Hobs.
Visit our new Home Page

WAIT A MINUTE! Where are the Gear Manufacturers?

A partial listing of gear manufacturers and other power transmission component suppliers can be found on page 72.

However, a comprehensive directory of mechanical power transmission components, will be featured in Power Transmission Engineering's buyers guide in the December issue.

Of course, you can always find the current listings of gear manufacturers online at www.powertransmission.com
