

## About This Directory

The 2017 *Gear Technology* Buyers Guide was compiled to provide you with a handy resource containing the contact information for significant suppliers of machinery, tooling, supplies and services used in gear manufacturing.

|                                         |    |
|-----------------------------------------|----|
| Cutting Tools.....                      | 22 |
| Gear Blanks & Raw Material.....         | 25 |
| Gear Machines.....                      | 26 |
| Grinding Wheels & Abrasive Tools.....   | 31 |
| Heat Treating Equipment & Supplies..... | 32 |
| Heat Treating Services.....             | 34 |
| Inspection Equipment.....               | 36 |
| Lubricants.....                         | 39 |
| Machine Tools.....                      | 39 |

| Services.....                           | 44 |
| Software.....                           | 47 |
| Used Machinery.....                     | 49 |
| Workholding & Toolholding.....          | 50 |

**BOLD LISTINGS** throughout the Buyers Guide indicate that a company has an advertisement in this issue of *Gear Technology*.

## But Wait! Where are the Gear Manufacturers Listed?

If you are looking for suppliers of gears, splines, sprockets, gear drives or other power transmission components, see our listing of this issue's power transmission component advertisers on page 53. In addition, you will find our comprehensive directory in the December 2017 issue of *Power Transmission Engineering* as well as in our online directory at [www.powertransmission.com](http://www.powertransmission.com).

## How to Get Listed in the Buyers Guide

Although every effort has been made to ensure that this Buyers Guide is as comprehensive, complete and accurate as possible, some companies may have been inadvertently omitted. If you'd like to add your company to the directory, we welcome you. Please visit [www.geartechnology.com/getlisted.php](http://www.geartechnology.com/getlisted.php) to fill out a short form with your company information and Buyers Guide categories. These listings will appear online at [www.geartechnology.com](http://www.geartechnology.com), and those listed online will automatically appear in next year's printed Buyers Guide

## Handy Online Resources

**The Gear Industry Buyers Guide** – The listings printed here are just the basics. For a more comprehensive directory of products and services, please visit our website, where you'll find each of the categories here broken down into sub-categories: [www.geartechnology.com/dir/](http://www.geartechnology.com/dir/)

**The Power Transmission Engineering Buyers Guide** – The most comprehensive online directory of suppliers of gears, bearings, motors, clutches, couplings, gear drives and other mechanical power transmission components, broken down into sub-category by type of product manufactured: [www.powertransmission.com/directory/](http://www.powertransmission.com/directory/)

## CUTTING TOOLS

All of the suppliers listed here are broken down by category (bevel gear cutters, broaching tools, hobs, milling cutters, shaping tools, etc.) at [www.geartechnology.com](http://www.geartechnology.com).

## All The Gear Cutting Tools You Will Ever Need Are Right Here

### DTR is one of the world's largest producers.

#### DTR. Your best choice for high quality gear cutting tools.

DTR is a world class supplier of the finest high performance long-life gear manufacturing tools, for small and large gear cutting applications. Established in 1976, we are one of the world's largest producers of cutting tools, shipping to over 20 countries.

DTR offers a full line of gear cutting tools including:

- Hobs
- Carbide Hobs
- Shaper Cutters
- Milling Cutters
- Chamfering and Deburring Tools
- Broaches
- Master Gears

We can produce virtually any tool you need for auto, aerospace, wind, mining, construction and other industrial gears.

Every tool is precision-made utilizing high speed steel, premium powder metal or carbide and the latest in coatings, to achieve superior cutting and long life. DTR uses top of the line equipment including Reischauer CNC grinders and Klingelnberg CNC sharpeners and inspection equipment.

Learn more about our outstanding quality tools at [www.dtrtool.com](http://www.dtrtool.com).

# Liebherr Performance.

Gear hobbing machine LC 180 DC

Gear hobbing machine LC 300 DC

Chamfering machines LD 180 C and LD 300 C

Chamfering in the work area

## **Simultaneous chamfering with ChamferCut – The best and most economical solution**

- Established process in gear production
- Very precise chamfer geometry
- Premium chamfer quality and reproducibility
- No bulging or material deformation
- Standard tooth-root chamfering
- Very long tool life
- Lower tool costs compared to alternative processes

# GERMAN MACHINE TOOLS OF AMERICA...

FOX

All from a single source, your powertrain part production takes a giant leap forward at laser light speed, when you turn to **GMTA** for assistance. We bring our quality machine tools, application engineering, installation and commissioning talents to you, all honed by 25 years of experience in the business, throughout North America. No milling around here, we cut to the root of your problem and consistently out-flank the competition. (OK, who gets it already?)

From our locations in Detroit and Mexico, **GMTA** provides you the best way to a clean, efficient production scenario, whether you're a job shop, contract manufacturer or Tier One vendor. We have the client roster to prove that, by the way. You might say we're judged by the companies we keep...as happy, satisfied customers. Always room for more.

Take a look at all we can do for your operation, today...

## FINISHES FOR IRON, STEEL & ALUMINUM

**TRU TEMP®** black oxide for iron and steel. 30 minute process operates at 200°F and creates a black magnetite finish.

**PRESTO BLACK®** cold blackening for iron and steel. 20 minute process operates at room temperature and creates a satin black finish.

**MICROLOK® MZN** zinc phosphate for iron and steel. 20 minute process operates at 140°F and creates a matte grey finish.

**LUMICLAD®** black oxide for aluminum. 30 minute process operates at 200°F and creates a satin black finish.

**FREE SAMPLE FINISHING –**  
Send parts & we test and provide  
recommendations.

## Vacuum Heat Treating & Brazing Services

### ...because quality is critical

We know high quality gears and components are vital to performance. Our leading edge vacuum technology and expertise provides precise control and repeatability for consistently superior parts.

- Low Pressure Vacuum Carburizing (LPVC)
- High Pressure Gas Quenching (HPGQ)
- Vacuum Stress Relieving

### Advantages

- Uniformity of case depths
- Minimized distortion
- No IGO (Intergranular Oxidation)
- Parts returned clean, free of soot – eliminating downstream cleaning processes

For more information or a quote,

## MANDO G211

Segmented mandrel for gear cutting

- Segmented mandrel with slim interference contour
- Rigid radial clamping with pull-back effect
- Large clamping range and vibration dampening due to vulcanized clamping bushings
- In-stock standard segmented clamping bushings
- Three end-stop levels
- Integrated flushing channels

## The best solution for gears production

HARBIN TOOL WORKS was set up in 1990, it is a modern enterprise mainly produces gear cutting tools. We have got 13 national patents for invention and utility model. Some important operations in the production process are completed on sophisticated foreign facilities imported from Germany, Switzerland, Italy and Japan. We have introduced the Swiss Balzers coating equipment, which can be used in various coatings to achieve dry cutting.

HARBIN TOOL WORKS not only provides high-precision, high-performance products, but also offers comprehensive and high quality service. After 20 years' study in gear industry, we become acquainted with the questions and needs of clients in choosing products, purchasing equipments, booking and using cutters.

HARBIN TOOL WORKS has been certified by the quality security standard ISO9001:2015
