## First, Decide...

whether you would like the water in your pool to appear blue or green.

For water that looks primarily blue, select a finish with white, blue or gray pigment.

For water that appears green, look for green, tan, brown or black pigment.

**The Darker  
Your Finish,  
the darker your pool

**The deeper the  
water, the darker

Water will seem lighter in shallower areas like steps, ledges, benches, and beach entries where the finish itself is more visible.

## Beauty, More than Surface Deep...

To achieve a deep, rich water color in a pool without a deep end, select a dark colored pool finish.

Your pool's depth has a huge impact on the color of your water.

Your pool may actually appear deeper when you select a finish with a darker pigment.

- For the sensation of swimming in a pool of rare gems, reflect on the glass beads of **JewelScapes**.
- For a remarkably smooth, long-lasting finish, look no further than **PolishedScapes**.
- Our most popular, durable finish, **StoneScapes**, offers an array of pebble sizes – micro, mini, or regular.
- Combine stunning, smooth glass beads with any size pebbles for a dramatic, custom look all your own.
- For the enduring splendor of a smooth quartz finish, select **QuartzScapes** or **ColorScapes**.
- If purely deep, rich color is what you desire, consider **PlasterScapes**.
