PROFILE Passionate web developer and NAIT graduate with over seven years of experience designing and building custom, responsive, and high-performing websites. Specializing in web design, front-end development, and WordPress solutions, I create user-friendly, SEO-optimized sites that enhance online visibility and drive engagement. Skilled in UI/UX design, mobile-first development, and performance optimization, I focus on delivering fast, modern, and conversion-driven web experiences that help businesses succeed.

SKILLS

PHP	Elementor
Astro	Figma
Laravel	Shopify
Git	TailwindCSS
API Integration	React
Vue	WooCommerce
WordPress	Webflow

EMPLOYMENT HISTORY

Apr 2019 — Present **Web Developer & Designer, J.A Web Design**

Collaborated with clients to gather requirements and deliver tailored website solutions aligned with business goals. Optimized websites for SEO, performance, and user experience throughout development. Resolved technical issues and provided troubleshooting to ensure smooth site functionality. Designed, built, and improved web pages, plugins, and custom features. Developed and maintained websites using HTML, CSS, JavaScript, PHP, WordPress, and Astro. Managed multiple projects simultaneously while meeting tight deadlines in fast-paced environments.

Apr 2025 — May 2026 **Web Developer & Designer, Kastle Media Solutions Inc**

Developed and maintained WordPress websites using Elementor, focusing on responsive, user-friendly front-end design. Managed website updates, ongoing maintenance, and performance optimization to ensure smooth functionality. Published and formatted blog content to support SEO and improve site engagement.

Aug 2024 — May 2025 **Web Developer, Mint Mantis**

Develop and maintain modern, user-friendly websites with a focus on performance, responsiveness, and SEO. Provide ongoing maintenance and technical support for client websites to ensure reliability and smooth operation. Implement custom features and functionality to enhance user experience and meet client requirements.

Jun 2024 — Apr 2025 **Web Developer, CBN Marketing**

Develop and maintain modern, user-friendly websites with a focus on performance, responsiveness, and SEO. Provide ongoing maintenance and technical support for client websites to ensure reliability and smooth operation. Implement custom features and functionality to enhance user experience and meet client requirements.

Sept 2024 — Feb 2025 **Web Developer, PlanetCom Managed IT + Creative**

Develop modern, user-friendly websites with a focus on performance, responsiveness, and SEO. Provide web server maintenance to ensure secure, fast, and reliable website performance. Deliver ongoing maintenance and support for client websites, ensuring functionality, stability, and timely updates.

Aug 2023 — Aug 2024 **Web Designer, Obsessed Media Group**

Specialize in developing modern, user-friendly e-commerce websites with a focus on performance and usability. Optimize websites for search engines to improve visibility, rankings, and organic traffic. Stay up to date with the latest web development trends and technologies to deliver modern, effective solutions. Provide ongoing maintenance and support to ensure consistent website performance, security, and functionality.
