OUR **NEXT-GEN INNOVATION**

FUTURE-READY TECHNOLOGY FOR A SECURE & SMART WORLD

www.brihaspathi.com

ABOUT US

Founded in 2006, Brihaspathi Technologies Limited is a leading provider of cutting-edge technology solutions. From E-Security Solutions, Home Automation, and AI-driven Software Development to IoT, IT Products, and ELV Solutions, we deliver innovation that transforms industries.

With a relentless commitment to excellence and innovation, Brihaspathi Technologies has become a trusted name in the tech sector. Our expertise spans multiple domains, enabling us to provide comprehensive, future-ready solutions tailored to diverse client needs.

Backed by a dynamic team of 300+ professionals, we thrive on challenges and continuously push the boundaries of technology. With 12,000+ satisfied clients across industries, we have successfully installed 2 millions+ cameras nationwide—enhancing security in every nook and corner of the country.

OUR MISSION

To design and deliver state-of-the-art security and surveillance solutions that address today's challenges, strengthen national safety, and contribute to a peaceful and secure future through advanced public-eye surveillance.

OUR VISION

To lead the surveillance industry by providing tailor-made, innovative, and integrated security solutions at competitive prices. We are committed to upholding the highest standards of integrity, fostering long-term partnerships with our clients, employees, and stakeholders

OUR JOURNEY

Examination Surveillance

We have successfully expanded into education surveillance by installing:

- 65,000+ cameras for NEET exam across India conducted by National Testing Agency
- 8,500+ cameras in Telangana State Board of Intermediate Education
- 4500+ cameras for MHCET exams in Maharashtra

Continuing our journey with greater milestones ahead

2025

Election Webcasting

As a dominant force in election webcasting, we deployed 100,000+ cameras during the 2023-2024 General Elections across India.

Border Security Force

We played a crucial role in border security surveillance, installing 674 cameras for the BSF at international borders, including Rajasthan (Pakistan) and Malda & Berhampore (Bangladesh).

2024

Advancing into Manufacturing

In alignment with the 'Make in India' initiative, we have transformed into a fully integrated enterprise, bringing in-house production capabilities to contribute to India's manufacturing strength and technological self-reliance.

2023

IoT Innovation & Breakthroughs

We continue to push the boundaries of IoT development and manufacturing. Our innovative COVID-19 devices exemplify our commitment to addressing global challenges through cutting-edge technology.

2022

Banking Surveillance

Securing the banking sector with advanced surveillance solutions, deterring crime and safeguarding assets through CCTV, burglar alarms and real-time monitoring.

2021

Kaziranga National Park

Kaziranga National Park now benefits from our futuristic IP thermal and ANPR camera systems, designed to support environmental conservation and wildlife protection.

2020

Nationwide Surveillance Projects

We have successfully extended our surveillance solutions across India, executing large-scale security projects that enhance safety and monitoring at a national level.

2019

Surveillance with Radio Technology

We achieved a major milestone by executing sand mine surveillance projects powered entirely by advanced radio technology.

2018

City Surveillance CCTV Camera

Our foray into the city surveillance domain began with the Kurnool Smart City Project, bringing solutions to urban areas.

2017

Marketing Services & Web Development

Our journey began with a strong foundation in web development and marketing services, paving the way for our expansion into the broader technology landscape.

BIZ TRACK – ERP

FIRST EVER AUTOMATION CENTRIC APPLICATION

For Enterprise, Small & Medium Businesses

CRM

CRM is complex and varies by business. A rigid approach doesn't work for all, so our pre-sales workflows adapt to your needs and customers.

Accounting

PLO accounting automation streamlines finances, ensuring discipline and instant access to critical insights with powerful analytics and reports.

Sales

Sales is the heart of any business, driven by constant customer connectivity. Our tools enable B2B and B2C to operate like E-commerce—24/7.

Services

Efficient support services enhance customer satisfaction. Streamline ordering, issue categorization, and ticket resolution with reduced response times, ensuring unwavering service quality and brand reputation.

Procurement

Maximize profits and efficiency with smart demand forecasting, optimizing inventory flow and cash cycles for cost-competitive procurement.

Human Resource

HR management is vital for any organization. Beyond data handling, it focuses on employee happiness, ensuring a motivated and satisfied workforce.

Marketing

Unite your team on one platform for seamless campaign management, stakeholder visibility, and increased sales through efficient order handling.

Manufacturing

Empowers manufacturers with automation, enhancing visibility, control, and real-time insights for seamless, consistent processes across ecosystems.

RENEWABLE ENERGY SOLUTIONS

At Brihaspathi Technologies, we are committed to powering a greener future with our cutting-edge renewable energy solutions. As a trusted system integrator for solar rooftop solutions, we deliver high-quality, efficient, and cost-effective energy systems tailored for residential and commercial applications. By combining innovative technology with expert execution, we ensure seamless installation and reliable performance. Our mission is to make clean energy accessible, minimize carbon footprints, and provide sustainable, affordable energy solutions that drive a brighter, eco-friendly tomorrow.

SOLAR PROJECTS

REIL

(Rajasthan Electronics & Instruments Ltd)

Awarded **5MW** Solar Project by REIL - Rajasthan.

MEDA

(Maharashtra Energy Development Agency)

Awarded the prestigious MEDA solar project to install rooftop solar in **272** Zilla Parishad schools across Maharashtra.

TGSRTC

(Telangana State Road Transport Corporation)

Awarded **990kW** Solar Project by TGSRTC - Telangana.

SOLAR SMART POLE

Introducing the Solar Smart Pole—an innovative, standalone surveillance solution powered entirely by solar energy. Designed by Brihaspathi Technologies Ltd., these poles offer comprehensive security and connectivity without reliance on traditional infrastructure.

Features:

Solar Panel

CCTV

WIFI

Ad Display

LED Light

PA System

Intercom

Charging Point

With our Solar Smart Poles, we are revolutionizing urban safety, communication, and sustainability, making security more efficient, eco-friendly, and accessible.

IT & TELECOMMUNICATION

In today's digital era, IT and Telecom Infrastructure serve as the backbone of modern communication and business operations. At Brihaspathi Technologies, we provide end-to-end IT and Telecom solutions that empower industries, drive innovation, and ensure seamless global connectivity across India.

From high-speed internet and cloud computing to mobile networks and data centers, our infrastructure integrates cutting-edge technologies like 5G, virtualization, and automation to enhance efficiency and performance.

IT & TELECOM PRODUCTS

Our IT and Telecom Infrastructure products encompass a comprehensive range of technologies essential for modern connectivity, data management and secure communication.

Fiber Optic Cables

Servers & Switches

Routers

With Brihaspathi Technologies, experience superior telecom solutions that ensure efficiency, speed and security, keeping businesses connected and future-ready.

SECTOR WISE EXCELLENCE IN CCTV SURVEILLANCE

Government

With a steadfast commitment to innovation and reliability, we empower government agencies such as ECI, DRDO, IOCL and more with advanced surveillance solutions. Our expertise in nationwide security implementation helps maintain law and order, prevent threats and enable rapid response to any situation. Trusted by authorities, we ensure the highest standards in security infrastructure.

Banks

We deliver tailor-made surveillance solutions for the banking sector, ensuring compliance with its stringent security protocols. Banks like Union Bank, Karur Vysya Bank, Canara Bank, South Indian Bank and more rely on our CCTV systems, burglar alarms and real-time monitoring to deter criminal activity, safeguard assets and enhance security.

Defence

Real-time surveillance is critical for defense operations, enhancing situational awareness and response efficiency. Our state-of-the-art surveillance solutions provide military and defense entities with superior monitoring, threat detection and security reinforcement to ensure national safety.

Commercial

From malls and retail stores to supermarkets and corporate buildings, we equip commercial spaces with the latest AI-powered CCTV technology. Our solutions offer proactive security, crowd monitoring, theft prevention and enhanced safety, making commercial hubs safer and more efficient.

Industrial / Warehouse

Industries and warehouses demand robust, high-performance surveillance. We specialize in blast-proof cameras, thermal imaging solutions and custom surveillance designs, ensuring uninterrupted monitoring, risk mitigation and operational security for factories, storage units and manufacturing hubs.

Residential

For gated communities, apartments, and individual homes, our smart surveillance solutions provide round-the-clock security, intrusion prevention, and remote monitoring. With 18+ years of experience, we deliver peace of mind and uncompromised safety to homeowners, ensuring their families and properties remain secure.

VIDEO MANAGEMENT SYSTEM

Brihaspathi's in-house Video Management System (VMS) is a robust and efficient platform designed to streamline the management of video content for the elections website. It offers a seamless experience for administrators to upload, organize, and distribute election-related videos effortlessly.

Key Features:

Upload & Manage Videos

Content Moderation & Approval

Video Streaming & Playback

Security & Access Control

Analytics & Reporting

VIDEO ANALYTICS FEATURES

Real-Time Object Detection

Identifies and classifies entities such as people, vehicles, animals, and more in real time, enhancing situational awareness.

Intrusion Detection

Monitors for unauthorized entries with precision, ensuring prompt alerts for potential threats.

Automatic Number Plate Recognition (ANPR)

Identifies and logs vehicle number plates, ideal for parking management and law enforcement.

Monitoring Free Physical Space

Assesses and monitors available space, aiding in logistics and the efficient movement of materials.

Face Recognition

Provides accurate identification, improving security and access control measures.

Fall Detection

Ensures safety by identifying falls and triggering immediate notifications, particularly valuable in elderly care and workplace environments.

SMART BUS SOLUTIONS

A Smart Bus Solution is a technology-integrated transportation system designed to enhance the efficiency, safety, and reliability of bus services. It modernizes both public and private transit operations. By enabling smarter management and real-time oversight, it improves the overall travel experience for passengers and operators.

FEATURES

**AI CCTV Surveillance**
Smart cameras for real-time monitoring, threat detection, and enhanced security.

**Wi-Fi Hotspot**
Free internet access onboard to enhance passenger experience and connectivity.

**GPS Tracking**
Live location updates for efficient route management and passenger convenience.

**Public Address System**
Driver mic + internal speakers. Announcements for stops or emergencies.

**Route Information**
Screens showing routes, stops, alerts, and travel information.

**Passenger Information**
Dynamic advertising screens to generate revenue through targeted content.

**Foam Fire Suppression System**
A system extinguishes flammable liquid fires by smothering them with a cooling, oxygen-blocking foam layer.

**Breath Analyzer System**
Prevents bus ignition if alcohol is detected in the driver's breath, ensuring sober driving and enhancing passenger safety.

**Big Data Analytics**
Enables real-time analysis of routes, passenger patterns, and vehicle performance to improve efficiency, safety, and service reliability.

**Smart Ticketing (In Future)**
Smart Ticketing allows digital fare payments through cards or mobile apps, streamlining boarding.

LAW ENFORCEMENT – IN-CAR SURVEILLANCE

Our AI-powered in-car surveillance system is designed to enhance police operations with real-time video monitoring, facial recognition, and license plate analytics. Integrated cameras, AI-MDVR, and smart control panels ensure 360° situational awareness. This solution supports safer patrolling, efficient evidence collection, and faster incident response—all within a connected police vehicle.

AI BIOMETRIC WITH AADHAAR AUTHENTICATION

Brihaspathi Technologies presents a next-generation AI-powered biometric solution seamlessly integrated with Aadhaar-based facial recognition for accurate, contactless, and fraud-proof identity verification. Designed for schools, hostels, workshops, and government institutions, this intelligent system ensures real-time attendance, eliminates proxy entries, enhances operational transparency, and complies fully with UIDAI standards.

Intelligent Identity & Attendance Management Solution

Core Features

- Aadhaar Authentication: Secure OTP-based verification via UIDAI
- AI Facial Recognition: Live presence detection with anti-spoofing
- Smart Dashboard: Real-time insights, logs & reporting
- WhatsApp & SMS Alerts: Instant attendance updates to parents
- Battery Backup & GPS Tracking: Uninterrupted operations, theft-proof hardware
- Cloud Storage: Secure, encrypted, and compliant with data regulations

Use Cases

- Educational Institutions: Schools, Colleges, Hostels
- Government Departments: Welfare, Health, Education, Social Justice

ANWI PRODUCTS

ANWI - ZENO SERIES LAPTOPS & ALL IN ONES

We are a leading manufacturer, in collaboration with our esteemed partner ANWI, specializing in high-performance All-in-One systems and laptops designed to meet the evolving demands of modern professionals. Combining cutting-edge technology with sleek, functional designs, our products deliver exceptional reliability, efficiency and seamless user experience. With an unwavering focus on innovation and quality, we provide tailored computing solutions that enhance productivity, streamline workflows and elevate your work experience to new heights.

TRINAI PRODUCTS

TrinAI is a renowned CCTV camera manufacturing unit and a proud Make in India brand by Brihaspathi Technologies. Established to meet the growing demand for advanced security solutions, TrinAI specializes in high-resolution cameras equipped with cutting-edge features like AI-powered analytics, night vision, motion detection, and remote access. Our highly automated manufacturing process ensures precision, efficiency, and top-tier quality. Backed by a dedicated R&D team, we continuously innovate to integrate the latest technology, enhancing the reliability, performance, and intelligence of our surveillance products.

SMART GPU WITH TRINAI CAMERA:

TrinAI is revolutionizing surveillance technology by integrating advanced AI-driven features into its Smart GPU with the TRINAI Camera. This innovative system leverages cutting-edge software R&D to provide unparalleled monitoring capabilities, making it an indispensable tool for modern security needs.

TECHNO RACK PRODUCTS

TechnoRack

Powerful • Smart • Quality

Technorack is a Prominent Manufacturer Specialized in High-Quality Networking Racks and Enclosures. Catering to the Needs of Data Centers, Telecommunications and IT Infrastructure . Technorack produces a wide range of racks that offer Robust and Flexible Solutions for equipment Housing.

The Manufacturing Unit is equipped with State-Of-The-Art Machinery and follows Stringent Quality Control Processes to ensure durability and precision in every product.

ACHIEVEMENTS

Maharashtra State Road Transport Corporation

Awarded a prestigious project for the supply, installation, and maintenance of an IP-based Video Surveillance Solution and an Integrated Command Control Center (ICCC) for MSRTC.

Kolkata Metro Railway

Awarded a prestigious project for the supply, installation and maintenance of an IP-based centralized Surveillance System from Kolkata Metro.

PwDs Welfare Department - Maharashtra

Awarded a Work Order for the implementation of an Integrated Aadhaar-Based Facial Recognition Biometric Attendance System across 932 schools and workshops under the Persons with Disabilities (PwDs) Welfare Department.

General Elections of 2024

We successfully installed over **1,00,000+ cameras** across India during the General Elections of 2024. Remote, critical, and isolated polling stations were monitored at both the district level and CEO offices by setting up advanced Command Control Centres.

Secure & Transparent Election Monitoring

To ensure secure and accurate routes, we installed **40,000 GPS trackers** for live election vehicle tracking, preventing deviations. Additionally, **400 PTZ cameras** were deployed for Flying Squad Teams to monitor and address Model Code Violations (MCV).

ACHIEVEMENTS

General Elections of 2019

In the General Elections of 2019 in Andhra Pradesh and Assam, **we installed 70,000 cameras**. Remote, critical, and isolated polling stations were again monitored effectively through district-level and CEO office Command Control Centres.

Telangana State Board of Intermediate Education

We successfully installed **8,500+ CCTV cameras** for the Telangana State Board of Intermediate Education (TGBIE) during the IPE 2025 exams with centralized Command Control Center was integrated for real-time monitoring of all examination centers.

NTA - NEET 2025

We successfully installed **65,000+ CCTV cameras across India** for the NEET - NTA 2025 examinations. A centralized Command Control Center was integrated to enable real-time monitoring of all examination centers, ensuring transparency, security and smooth conduct of the exam nationwide.

MHCET - 2025

(Maharashtra Common Entrance Test)

We Successfully installed **4,500+ CCTV cameras** across Maharashtra for MHCET 2025, **covering 1.3 million students over 45 days** — all monitored in real-time via a centralized Command Control Center for secure and transparent exams.

Border Security Force

We installed **674 PTZ and bullet cameras** along the International Borders of Rajasthan (Pakistan) and Bangladesh for the **Border Security Force**.

ACHIEVEMENTS

Highcourt – AP & TG

Installed **110 PTZ and IP Dome Cameras**, along with an **Under Vehicle Scanning System** to detect potential hidden threats.

Installed **105 PTZ and IP Dome Cameras** with a video management system, combining video conferencing and live streaming on a single platform.

Kaziranga National Park – Assam

Successfully commissioned a prestigious project at **Kaziranga National Park**, Assam, installing **72 IP thermal-based and ANPR cameras** without disturbing the eco-environment.

Singareni Collieries Company Limited

Set to install over **2,000 advanced surveillance cameras** across Singareni Collieries, enhancing security and operational monitoring.

Tata Power Project

We Installed **200+ PTZ & Bullet Cameras** server with Video Analytics for Tata Power Project. This Installation will provide Security and Monitoring at the entire Tata Power Plant.

NTTPS

Installed and commissioned **120 cameras**, enhancing the security and monitoring capabilities at Dr. Narla Tatarao Thermal Power Station.

ACHIEVEMENTS

Indian Oil Corporation Limited

Entrusted with the installation of over **300 PTZ, bullet, and flame-proof cameras** at IOCL plants, strengthening their security and surveillance infrastructure.

CSIR - CCMB, Hyderabad

We installed 350+ CCTV cameras across CSIR-CCMB staff facilities, including laboratories and the head office in Hyderabad, significantly strengthening on-site security and surveillance infrastructure.

Atomic Minerals Directorate

Installed **60 IP cameras with PA systems** at Hyderabad AMD and **55 IP Cameras** at Bengaluru AMD, enhancing security at these critical research facilities.

Aarogyasri - AP

Installed **1,500 cameras at Aarogyasri across Andhra Pradesh**, including remote and isolated locations, within a week, ensuring comprehensive coverage.

Agricultural Market Committee

Installed and commissioned **3,000 cameras** across **AP Market Yards**, ensuring secure and efficient operations.

ACHIEVEMENTS

MP And MLA Colony - Hyderabad

Commissioned **225 cameras**, including 18 **ANPR cameras**, to monitor the entry and exit movements of vehicles at **Banjara Hills MP and MLA Colony**.

Temples

Srisaila Devasthanam: Successfully installed and commissioned **200 cameras**.

Sri Kalahasti Temple: Successfully installed **150 cameras** to enhance security at this sacred site.

Kondagattu Anjaneya Swamy Devasthanam

120 CCTV Cameras Installed at Kondagattu Anjaneya Swamy Devasthanam in a record time Integrated with Command Control Centre.

IT Companies

Installed **600 CCTV cameras**, providing comprehensive surveillance for **IVY Comptech's operations**.

Installed **64 IP-based** high-definition dome cameras for precise identification and monitoring at **Dazn Software Pvt. Ltd.**

AP Beverages Corporation Limited

We developed an **Android-based vehicle tracking software** for real-time monitoring of vehicles, improving logistics and **fleet management efficiency**.

Experienced Team:

Our team of skilled professionals possesses deep expertise in the latest technologies, ensuring top-tier solutions tailored to your needs.

Client-Centric Approach:

Our priority is delivering exceptional service and support, ensuring complete client satisfaction.

Proven Track Record:

With 18 years of excellence in successfully executing and completing e-security projects, we bring reliability and trust to every engagement.

Commitment to Quality

Quality is the foundation of everything we do. We adhere to the highest standards of quality control to ensure reliable, efficient, and effective solutions.

Focus on Innovation:

We are committed to developing cutting-edge solutions that address the specific challenges of our clients.

Competitive Pricing:

We provide high-value solutions at the best industry rates, ensuring affordability without compromising on quality.

Future-Proof Solutions:

Our solutions are designed to scale with your growth, adapting to future technological advancements seamlessly.

Comprehensive Service Portfolio

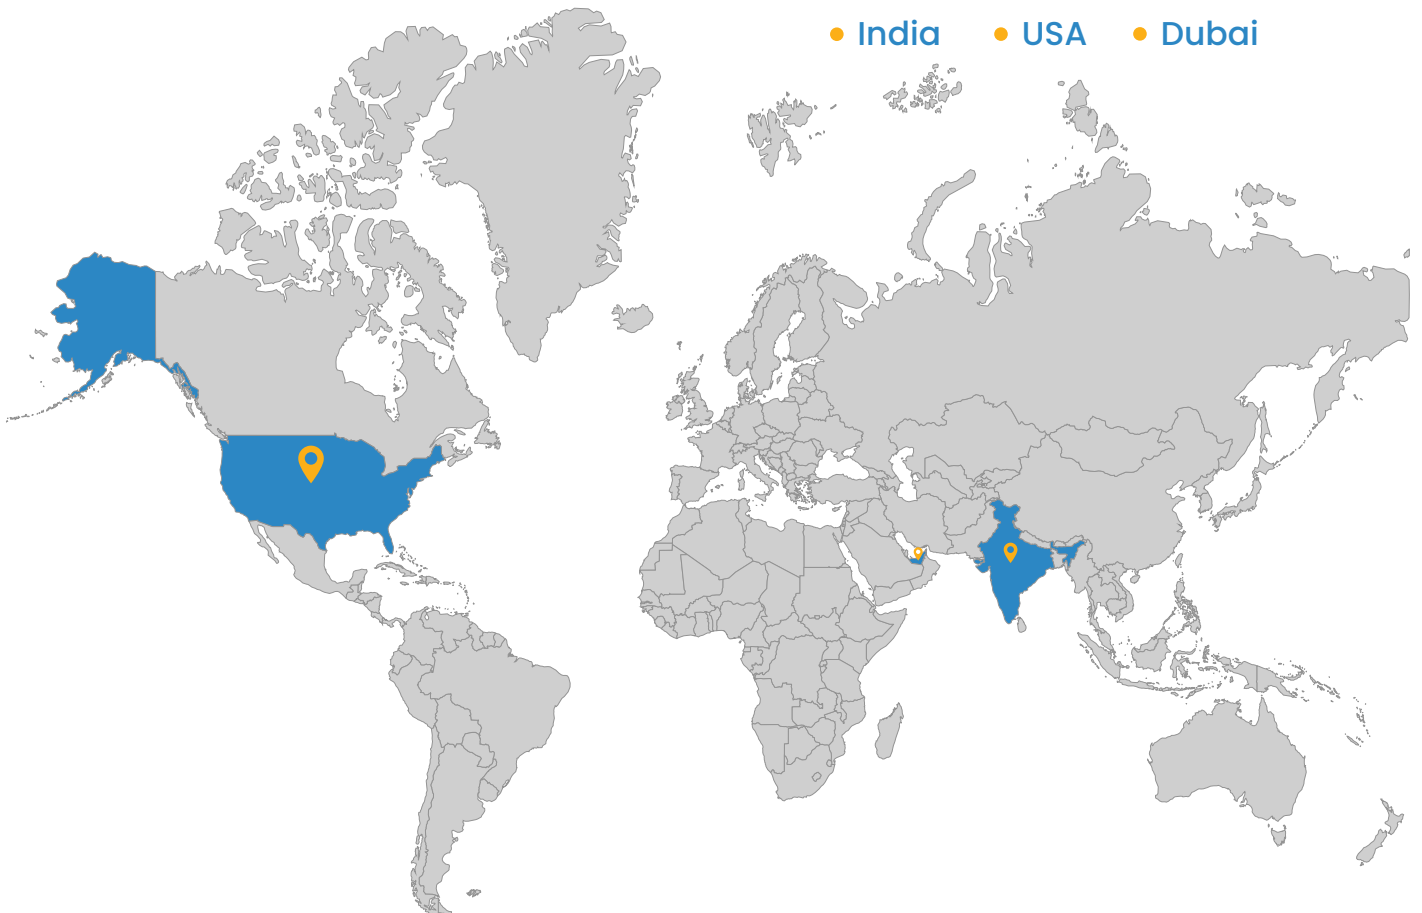

From E-Security and IT Consulting to IoT, Home Automation, and Software Development, we provide a one-stop solution for all your technology needs, delivering a seamless experience.
