01 / experience

Full Stack Developer
April 2026 — Present

Proclivity Digitech, Kolkata, West Bengal

- Building and maintaining full-stack web applications across the stack, from REST APIs and server logic to responsive, animation-rich frontends.
- Led the full rebuild and rebrand of Proclivity Digitech's company website using Next.js 16, Tailwind CSS, and a custom Node.js/Express + MongoDB Atlas API, replacing a slow WordPress build.

Frontend Developer
July 2025

Imperable Technologies, Kolkata, West Bengal

- Delivered high-quality UI implementations in React.js, Next.js, and Tailwind CSS, bridging prior design experience with production-level frontend engineering.

Web Designer and Developer
March 2025

Edot Solutions, Kolkata, West Bengal

- Designed and developed real-estate landing pages and full-featured websites in WordPress, combining design thinking with development execution end-to-end.

WordPress Developer
August 2024

Opensass Solutions Pvt. Ltd, Remote

- Contributed WordPress development across the organisation's main website and client projects, handling design implementation and custom theme work.

02 / projects

Reline UI
open source

`react / next.js` `framer motion`

Open-source React component library built around glassmorphism and fluid motion. Ships production-ready buttons, dialogs, tabs, and more with dark mode out of the box.

Aadil Fragrances
freelance

`next.js` `motion-react` `e-commerce`

Full e-commerce site for a Kolkata-based custom perfume brand, showcasing 400+ handcrafted fragrances with order customisation and OAuth auth.

Shapioso
freelance

`next.js` `typescript`

Full-stack marketing website for a digital agency with services, portfolio, and client testimonials in a clean developer-themed aesthetic.

Web Maniacs Theme
freelance

`wordpress` `php` `tailwind 4`

Custom WordPress theme rebuild for a NZ agency, replacing a bloated page-builder with hand-coded PHP, Tailwind CSS 4, and Lenis smooth scroll interactions.

Cubane
ongoing

`next.js` `tailwind css`

Documentation and feature showcase website for the Cubane Layer-1 blockchain platform, focused on developer clarity and visual credibility.

Zeaster
2026

`react` `reline ui`

Travel booking template built with Reline UI components and micro-interactions, demonstrating how standard booking UIs can feel premium and intentional.
