SUMMARY

A Frontend Web Developer who has a high enthusiasm for web application development. Has main capabilities such as Javascript, Typescript, React.JS, Vue.Js, Next.js, and Nuxt.js, I have recently transitioned to a Fullstack Developer role, where I primarily focus on frontend development using Nuxt.js while occasionally contributing to backend development with ASP.NET Core in C#. and Interested in exploring new things to increase knowledge, have good adaptability, can work professionally both as a team and individually

EXPERIENCE

Software Engineer   11/2022 - Present
Refactory

- Developed for client websites, specializing in React.js, Next.js, Vue.js, Nuxt.js, and Asp.net Core.
- Performed quality assurance tests on various sites to ensure cross-browser compatibility and mobile responsiveness
- Clients included Biofarma (Mediverse), Aladinmall, Mitra Pinastika Mulia (MPM) and Astra Graphia Information Technology (AGIT).

Quality Control   12/2020 - 08/2022
PT. Primadaya Plastisindo

- Conduct regular inspections and testing on raw materials, components, and finished plastic blow-molded jerrycans to identify defects, ensure dimensional accuracy, and maintain overall product quality.
- Accurately document test results, and analyze data to compile reports.
- Maintenance and calibration of laboratory equipment and adherence to safe working procedures.
- Responsible for conducting material testing on plastic resin, including tensile strength, compressive strength, hardness, water absorption, and other relevant physical and mechanical properties, in preparation for production.

Quality Control   07/2019 - 02/2020
PT. Angsa Daya

- Conduct regular inspections and testing of raw materials, components, and finished ceramics to check for defects, dimensional accuracy, and overall quality.
- Accurately document test results, and analyze data to compile reports.
- Maintenance and calibration of laboratory equipment and adherence to safe working procedures.

SKILLS

Typescript	Nuxt.js
Javascript	ASP.NET Core
C#	Azure Function
Vue.js	SQL Server
React.js	PostgreSQL
Next.js	CosmosDB
