Diplomat Electric

Diplomat Electric is one of Euroscreen's best-selling projection screens with white contemporary aluminium cassette and channel-fixed installation. The channel-fixed feature makes it one of the market's most flexible and easy screens to install. Thanks to its functional design the Diplomat is suitable for any application; especially popular in conference and education facilities, as well as in home theatres.

Diplomat Electric Tab Tension

This model features all of the benefits mentioned above, and an additional selection of tensioned screen surfaces. The tensioning function makes it possible to adjust the flatness of the surface and therefore provide a perfectly flat viewing surface for years to come.
