CBOP-07

Ear Piercing XL Size

Exclusive

Newness Series

Our Newness earrings represent one of our great and exclusive series, they are a stunning choice, and the perfect complement to a fancy or everyday look. Newness earrings typically contain a special design that is surrounded by a circle frame. The earrings are available with many center designs. Newness earrings are a bit fancier than the regular piercing studs but can still be worn every day.

Perfectly yours.

Body Piercings

We offer high quality and affordable body jewelries to wear, made from stainless steel and Titanium.

Stainless steel: Jewelry is made from surgical grade stainless steel. This jewelry can be used in initial piercing and comes in a variety of styles.

Titanium: is the best of metals used for body piercing jewelry because of its absolute resistance to body fluid attacks. It is 100% compatible with the human body and does not produce allergies, skin irritations or discoloration of any sort, which makes it the ideal metal for those with sensitive skin.
