feeding futures*

Product Catalogue
2023

As a mom, you naturally want what is best for your baby from day one. The moment your little one enters the world, a profound sense of responsibility and love washes over you. Ensuring their health, happiness, and well-being becomes your top priority. You tirelessly search and select the safest and most nurturing products, from gentle baby skincare to cosy bedding and everything in between.

At the heart of Bebedou®, we are dedicated to crafting premium-quality, safe, and innovative products that cater to the diverse requirements of mothers and their precious little ones. From softest and most comfortable baby soothers to ergonomically designed baby feeders that provide unparalleled comfort. We ensure that every product is thoughtfully designed, rigorously tested, and made with the utmost care.

Beyond merely offering a wide range of baby essentials, we recognize the emotional and practical support required by mothers. Our comprehensive line of mother care products, including breastfeeding accessories and baby care essentials, attests to our holistic approach to empowering mothers to navigate the challenges of motherhood with confidence and ease. We are here to help you to give your baby the best start in life.

Feeding Bottles

NaturaNeck Series

NATURANECK SYSTEM

Introducing the Bebedou® Baby Feeding Bottle (with NaturaNeck Silicone Nipple), the perfect companion for nurturing your little one during those precious feeding moments. Our bottle is thoughtfully designed with both baby and parent in mind, ensuring a seamless and comfortable feeding experience every time. Our baby feeding bottle is rigorously tested for safety and functionality, making it a reliable choice for your little one.

My baby seemed very content with the breast-shaped nipple. She latched on and accepted it right away, which makes it easy for my baby to switch between breast and bottle. I would absolutely recommend the NaturaNeck feeding bottles for any mom!

The natural way of bottle feeding

Our new NaturaNeck feeding bottle makes it easier to combine breast and bottle feeding. With a breast shaped nipple for natural latch on similar to the breast, unique comfort latch-on design for softness and flexibility, and an innovative anti-colic system, it's our most natural bottle yet.

Ultra Wide Neck Series

Natural Flow & Natural Feeling

Introducing the Bebedou® Baby Feeding Bottle (with Ultra Wide Neck Natural Silicone Nipple), the perfect companion for nurturing your little one during those precious feeding moments. Our bottle is thoughtfully designed with both baby and parent in mind, ensuring a seamless and comfortable feeding experience every time. Our baby feeding bottle is rigorously tested for safety and functionality, making it a reliable choice for your little one.

Advanced Anti-Colic Technology

Advanced Anti-Colic Technology with innovative twin valve to draw air away from your baby's milk.

Ergonomic Shape for Maximum Comfort

Unique shape of the bottle is easy to hold and gives a firm grip in any direction for maximum comfort.

Easy to Use and Clean

Wide bottle neck makes filling and cleaning easy. Fewer parts means quick and easy assembly.

Wide Neck Series

Natural Flow & Natural Feeling

Introducing the Bebedou® Wide Neck Feeding Bottle (with Wide Neck Natural Silicone Nipple), the perfect companion for nurturing your little one during those precious feeding moments. Our bottle is thoughtfully designed with both baby and parent in mind, ensuring a seamless and comfortable feeding experience every time. Our baby feeding bottle is rigorously tested for safety and functionality, making it a reliable choice for your little one.

I started using Bebedou Wide-Neck feeding bottles as they are made of the highest quality and they offer great value for money. They are easy to clean and maintain, and our baby girl doesn't have any problem with ingesting air while feeding. She is happy, and I am happy!

Available Colours

Bebedou® standard neck nipple plastic feeding bottle is a healthy start to a baby's independent eating habits. The bottle allows natural movement of the baby's tongue, ensuring maximum development of baby's facial and jaw muscles. It incorporates a unique air ventilation system that allows minimum air intake and easy gliding of milk into the baby's stomach. The nipple gets perfectly fit into the baby's tongue and encourages the peristaltic motion of the tongue.

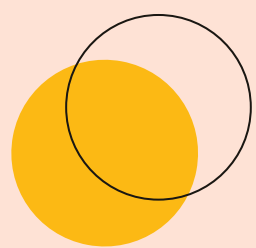

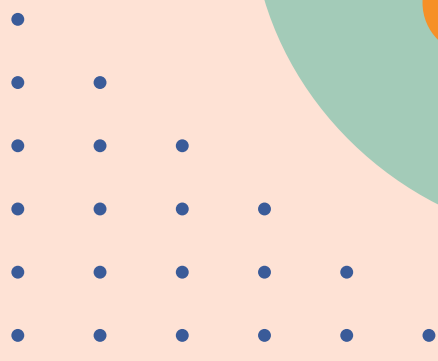

Advanced Anti-Colic Technology

Advanced Anti-colic Technology with innovative twin valve to draw air away from your baby's milk.

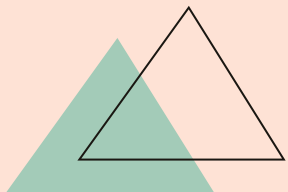

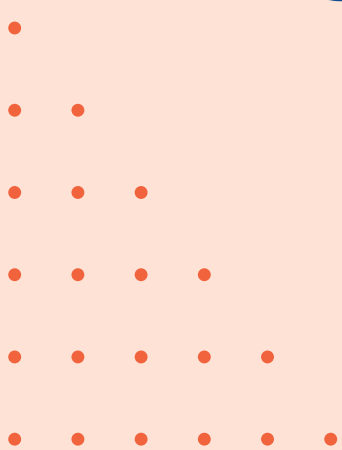

Easy to Use and Clean

Wide bottle neck makes filling and cleaning easy. Fewer parts means quick and easy assembly.

Toddler Drinking

Toddler Spout Cup

Independent drinking made easy

The Bebedou® Spout Cup is the perfect companion to help your little one transition from a bottle to a regular cup with ease. Designed with practicality and functionality in mind, our training cups encourages independent drinking while ensuring a spill-proof and enjoyable experience for both you and your child.

Learning new things can be a bit intimidating, especially when it comes to sippy cups. We wanted to make it easier for your little one to take their first sip, so we made them with handles that are soft and easy to hold.

2 in 1 Silicone Bottle Brushes

Specially Designed for Feeding bottles

The Bebedou® Bottle and Nipple Brush Set includes versatile and efficient cleaning tools specifically designed for cleaning bottles, sippy cups, containers, and nipples.

BBD - 5121

I tried using the brushes in different surfaces, from glass bottles to plastic bottles, and it was one of the best product i have tried! totally worth it!

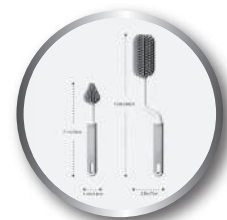

Just as it is important to choose the right baby feeding equipment like feeding bottles and nipples, it is important to maintain the quality and hygiene of the equipment by cleaning them thoroughly after every use.

Bebedou® 2 in 1 Silicone Bottles Brushes cleans the toughest of stains from the places that are the hardest to reach!

IDEAL FOR BABY BOTTLES & NIPPLES

ERGONOMIC HANDLE DESIGN

Food Grade Liquid Silicone

Feature soft and flexible bristles made from liquid silicone. These bristles are gentle yet effective in removing residue and stains.

360° Rotatable Handle

The long handles offer easy grip and manoeuvrability with 360° rotation. The nipple brush is specifically designed for cleaning bottle nipples.

Soft Bristles - No Scratch on Surface

The soft silicone bristles of the bottle brush ensure that it does not leave any scratches on the interior or exterior of bottles.

Baby Food Feeder

Helps reduce the risk of choking

Introducing the Bebedou® Baby Food Feeder, your ultimate solution for safe and enjoyable Feeding. The Bebedou® Baby Food Feeder is an innovative and versatile feeding tool designed to make your baby's transition to solid foods smooth, safe, and enjoyable. Created with meticulous attention to detail and safety, this feeder empowers both parents and babies to embark on the exciting journey of exploring new flavors and textures while minimizing the risk of choking hazards.

Did you know?

Using a food feeder is ideal for babies to consume solid foods in a healthy and a safe way during their transition towards supplementary food period.

INNOVATIVE & ERGONOMIC DESIGN

ANTI-CHOKESILICONE FEEDER

BBD - 5341

Available Colours

Effective Filtration

2mm holes to effectively filter the residue and make your baby have a comfortable feeding experience.

Easy Food Placement

23mm large diameter helps place food and fruits easily so your baby can ingest digestible nutrients without a hassle.

Spiral Propulsion

Spiral Propulsion helps in blending food effortlessly and feed your little one without a hassle with no wastage.

Silicone Food Feeder

With Suction Pad

Introducing our innovative Bebedou® Silicone Feeder with Suction Pad, a convenient and mess-free solution for feeding your little one. This unique feeding system combines the benefits of a bottle and a spoon, allowing for easy and controlled feeding. It is perfectly suited for the initial stage of introducing your baby to weaning, allowing you to safely and comfortably introduce juices, broths, or soft solids.

Did you know?

Introducing solids is one of the many exciting milestones in baby's first few months of life. The look on their faces upon tasting something other than milk is priceless (and adorable)! Bebedou® Baby Food Feeder offers a safe and easy way to feed baby purees, whether it's store-bought jars or homemade baby food.

Using a food feeder is ideal for babies to consume solid foods in a healthy and a safe way during their transition towards supplementary food period.

COMPACT & PORTABLE

VERSATILE USAGE

Food-Grade Silicone

Food grade silicone is odorless, non-toxic, and non-hazardous in nature. Does not contain BPA or BPS.

Silicone Spoon Feeder

Soft Spoon feeder made food grade silicone protects baby's oral development. Helps in convenient food feeding.

Suction Pad for Extra Stability

Features a suction cup that helps the feeder to be fixed on the table for extra stability and avoid accidental movement.

BBD - 1201

Baby Nasal Aspirator

With Anti-backflow

Introducing our Bebedou® Baby Nasal Aspirator, a gentle and effective tool designed to help clear your baby's congested nose. This handy device offers a safe and hygienic way to remove excess mucus, providing relief for your little one.

BBD - 5251

Do's and Don'ts

- ♥ Do wash all parts thoroughly with hot water before and after each use.
- ♥ Do check the instructions clearly before using the nasal aspirator in your baby's nose.
- ♥ Do dispose the nasal aspirator at the first sign of damage.
- ♥ Don't use abrasive cleaner to brush or clean any part of the nasal aspirator.
- ♥ Don't allow the baby to play with it, as it is not a toy.

Nasal cleansing is essential in babies as they cannot blow their noses on their own. Since a closed nose makes breastfeeding difficult and prevents the baby from sleeping peacefully, it is always good to keep the nose clean and accessible. Bebedou® Nasal Aspirator helps free baby's nose from excess mucus in a practical way.

Anti-backflow Design

Continuous extrusion without backflow. This means even if you continue to squeeze, the cleaned nose will not flow back.

Silicone Nozzle

Specially designed soft silicone nozzle head design. Round tip ensures that it avoids hurting baby's nasal mucosa and cavity.

Round Tweezer

Round tweezer head design provides protection when picking up mucus in baby's nose without hurting the nasal cavity.

Medicine Feeder Kit

For Effortless Feeding

The Bebedou® Baby Medicine Feeder Kit is a specially designed device to help parents administer medicine to their infants and toddlers with ease and comfort. This device aids in delivering accurate doses of medications precisely without causing stress to the child.

Mommy Tips

- ♥ Do not give medicine if the baby is laying down.
- ♥ Read the medicine dosage carefully and always consult your pediatrician for advice.
- ♥ Store medicine away from baby's reach.

BBD - 5261

Medicine feeding is always a struggle between parents and babies. Bebedou® Medicine Feeder makes feeding medicine to your little one quick and easy. It is made with a pacifier head that is designed for baby's maximum comfort and safety.

Two Methods of Feeding

Use the dropper or the syringe according to advice provided by your pediatrician.

Advanced Anti-choke Teat Design

Specially designed for the baby to feed medicine, using liquid injection on both sides, to avoid effective choke prevention.

Accurate Measurements

Transparent bottle body with scale, ready to master the amount of medicine, and accurate dosage.

Milk Powder Dispenser

For Effortless Feeding

Introducing our Bebedou® Milk Powder Dispenser, designed to provide convenience and freshness for parents and caregivers. This innovative container is an essential accessory for on-the-go feeding, ensuring your baby's nutrition is always at hand. Crafted with high-quality materials and thoughtful design, our Milk Powder Container simplifies the process of preparing formula or milk for your little one.

BBD - 5301

COMPACT & PORTABLE

VERSATILE USAGE

Sealed Air-Tight

Our milk powder container is securely sealed, keeping the milk powder fresh and preventing from any contamination.

Secure Lid for Preventing Spills or Leaks

The dispenser is equipped with a tight and secure lid that prevents any spills or leaks, ensuring that the milk powder remains fresh at all times.

BPA-Free and Food-grade Raw Materials

Our Milk Powder Dispenser is made from premium quality food-grade materials, ensuring its safety.

To maintain the hygiene and functionality of the milk powder dispenser:

- Before first use, wash all parts of the dispenser with soap and warm water.
- Rinse and dry thoroughly before each use.
- After use, wash with warm soapy water or place in the dishwasher for convenient cleaning.
- Ensure all parts are completely dry before reassembling and storing.

The background is a light green gradient with various abstract geometric shapes. There are several yellow shapes, including a large circle on the left, a large triangle in the center, and a smaller triangle to the right. There are also black shapes, including a large circle at the top, a large circle at the bottom left, and several lines and rectangles. White wavy lines are scattered throughout the design.

Mother Care

Silicone Nipple Shield

With Protective Case

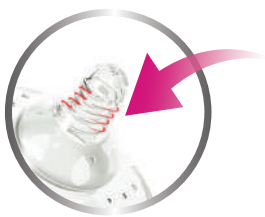

Introducing our Bebedou® Silicone Nipple Shield, a discreet and convenient accessory designed to provide comfort and privacy during breastfeeding. Our Silicone Nipple Shield offers a range of benefits for nursing mothers, allowing you to breastfeed confidently in public or in the privacy of your own home.

BBD - 4104

Good to know!

- Our breastfeeding nipple shields are designed with mimicking the montgomery glands, providing your baby with a more familiar breastfeeding experience.
- The round shape of the nipple shield design along with the space in the center flexes to perfectly fit different breast shapes and sizes, providing the ultimate flexibility when breastfeeding your baby.

**SPIRAL DESIGN
FOR FLOW CONTROL**

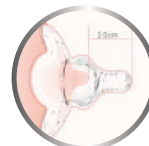

**MIMICS NATURAL
BREAST DESIGN**

**Natural
Absorption**

Soft silicone nipple mimics the natural breast-like shape. Helps in lactating and easy feeding for your baby.

**Non-slip
Curvature Design**

Gives a firm and gentle grip for nursing mothers. Curved design is specially made to avoid slipping when attached to the breast.

**Easy to Use
and Clean**

Made from food grade liquid silicone, allowing you to clean and disinfect in multiple methods.

Manual Breast Pump

For Nursing Mothers

Introducing our Bebedou® Manual Breast Pump, a practical and reliable tool for breastfeeding mothers who prefer a more hands-on approach to expressing milk. Our Manual Breast Pump offers a simple yet effective solution for convenient and efficient milk extraction whenever and wherever you need it.

Happy Baby,
Happy Mom

Breast milk is, without doubt, best for your baby's start in life. It provides natural protection against infection and helps your baby's ongoing health and development. Our breast pump is designed to help you in your breastfeeding journey, making it easier and as comfortable as possible to give your baby all the goodness of your breast milk.

BBD - 5101

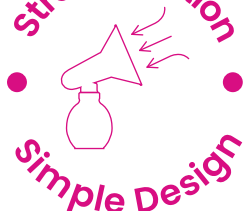

Compact

Available Colours

Strong Suction

Comfortable Pumping Position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight.

Adaptive Silicone Cushion

More milk in less time with a cushion that stimulates the breast to express milk just like baby. The silicone cushion gently adapts to fit your nipple.

Easy Manual Operation

The manual breast pump is ideal if you express milk occasionally and value compactness. Easily operated with one hand.
