

367/5 Kraftform Plus TORX(R) + Rack Set

Kraftform Plus - Series 300

EAN:	4013288147059	Size:	274x122x40mm
Part Number:	05345220001	Weight:	308.4 G
Article Number:	367/5	Country of origin:	CZ
		Customs Tariff Number:	8205400000

- Screwdriver for recessed TORX® screws
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- "Take it easy" tool finder: colour coding according to profile and size
- Hexagonal anti-roll feature against rolling away
- The Wera Black Point tip offers an exact fit and optimum corrosion protection

Premium Kraftform Plus 5- piece screwdriver set for TORX with rack included. Multi-component Kraftform handle for fast and gentle work. Kraftform Plus: Hard handle zones for high working speeds, while soft handle zones guarantee a high torque transfer. The Wera Black Point tip and a sophisticated hardening process guarantee a long usability for the tip, increased corrosion protection and exact fitting accuracy. "Take it easy" tool finder with colour coding by profile and size stamping - for quick and easy identification of the required tool. The hexagon anti-roll protection avoids bits from rolling away annoyingly at the workplace.

367/5 Kraftform Plus TORX(R) + Rack Set

Kraftform Plus - Series 300

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.

Rapid hand repositioning

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin "sticking" to the handle. The surrounding hard zones with large diameters glide like wheels through the hand.

Large contact area

The large contact area - with particularly high friction to the soft zones - results in high torque transfer without any bruising from the edges.

Kraftform

The basic idea for the prototype of the Kraftform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Identification marking

The screw symbol and tip size identification markings on the handle make it easier to find the right screwdriver in the tool case, or at the workplace.

Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.
