AVINI EXPERIENCE™

Feel Better. Look Better. Live Better.

AVINI *Advantage*™

MAY/JUNE 2026 EDITION

"Early-bird tickets are now available! See you there!"

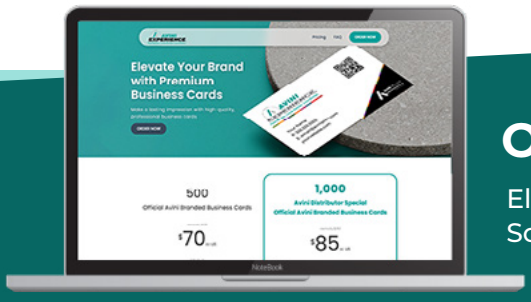

Message from Neil Roth, CEO

AVINI EXPERIENCE™

Feel Better. Look Better. Live Better.

As of June 1st, the Avini Experience™ is in motion! Those who attended the May 16th meeting in Boca are off and running! We have just published the new **avinilive.com** site that brings all the excitement and recognition as we move forward with our Avini Live! parties and our Summit. Please go to this website and submit your stories so you too can win amazing prizes at the next Avini Live! **Party at the Orlando Accelerator Summit in October. Early-bird tickets are now available! See you there!**

Ban the Crepitus with
AVINI'S PLUS MOTION

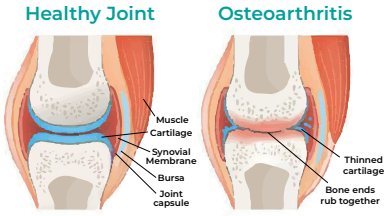

Rik J. Deitsch, MS Biochemistry
Chief Science Officer, Avini Experience

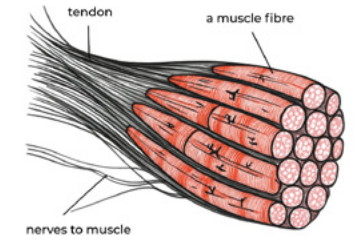

The word of the day is Crepitus.

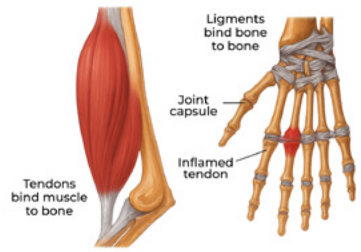

We all lose cartilage every day through normal activities. Additionally, motion will cause stretching in the joint in the cartilage cushioning. This will eventually create cavitation 'bubbles' in the synovial fluid around the joints that 'crack' or 'pop' when we move. That is called "Crepitus," the Rice Krispy sounds that our joints make that get worse as we age.

The cushioning around our joints is made of cartilage, which in turn is formed from type II collagen. Every day our bodies break down cartilage and make new cartilage. As we get older, we tend to break down the cartilage faster than our bodies can replace it. This loss of cartilage and damage to the bones and connective tissue results in osteoarthritis.

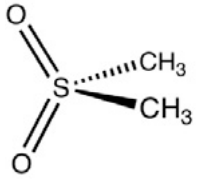

Aside from the cartilage that cushions the joint, we also have connective tissue to hold everything together. Tendons connect the muscles to the bone while ligaments connect bones to other bones. This connective tissue can be damaged by trauma, but also weakens with age. As tendon damage occurs, we can also lose range of motion and increase risk of inflammation.

As trauma occurs at the joint, especially when the bones rub together, inflammation can occur. The body perceives inflammation as a positive thing to try to stop the joint from moving and causing more damage. Of course, we perceive inflammation as a bad thing because it inhibits regular movement and reduces the range of motion of our joints. The body creates inflammation by making inflammatory compounds: prostaglandins and leukotrienes. Many 'anti-inflammatory' drugs work by blocking some of the production of those compounds.

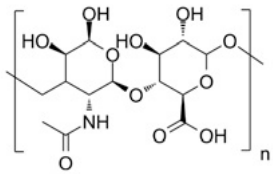

While there are many drugs and supplements that purport to be anti-inflammatory or work to replace lost cartilage, only Avini's Plus Motion takes the entire joint capsule into consideration.

Avini's Plus Motion provides nutrients to support joint structure, improve flexibility, improve mobility, reduce joint pain, reduce inflammation, improve joint lubrication by increasing the production of synovial fluid and improve tendon structure. The formula begins with:

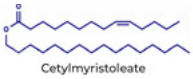

Glucosamine HCl: Glucosamine is an amino sugar that serves as a crucial building block for glycosaminoglycans (GAGs), which are long-chain carbohydrates essential for the structure and function of joint cartilage, ligaments, tendons, and synovial fluid. As a precursor, glucosamine helps the body create these vital GAGs, playing a key role in maintaining the health of connective tissues, particularly in joints. Hundreds of published studies provide evidence for the role of daily glucosamine in improving cartilage production. While most studies utilize glucosamine sulfate, Avini chose to utilize glucosamine HCl because it allows for a slightly lower dose. Since glucosamine sulfate is only 63% glucosamine while glucosamine HCl is 83% glucosamine, we can use just 1,140mg daily instead of the 1,500mg required by the sulfate form.

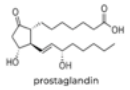

Opti-MSM® (Methylsulfonylmethane): Methylsulfonylmethane is a source of organic sulfur that is important for optimal health. Sulfur is a nutrient that acts as a critical component of key molecules that make up connective tissue throughout the body, including joint and skin tissue. MSM taken as a supplement, acts as a methylator and sulfur donor for cartilage growth. This has the effect of building cartilage while reducing inflammation.

Hyaluronic Acid (HA): Hyaluronic acid works by attracting and holding significant amounts of water to keep tissues hydrated and plump, which improves skin elasticity and reduces the appearance of wrinkles. Found naturally in the skin, joints, and connective tissues, its production decreases with age, leading to dryness and laxity. Taking HA supplements can increase its levels, helping to restore moisture, cushion joints, and promote healthier-looking skin.

Celadrin® (Cetylmyristoleate): This is a natural compound that fools the body into believing that it has already made the inflammatory compounds; leukotrienes and prostaglandins. Because cetylmyristoleate is structurally similar to those compounds, but does not trigger inflammation, it stops the inflammatory cascade through a phenomenon known as 'negative biofeedback.' The body stops creating inflammation because it thinks that it's already done that. This has the effect of not only stopping inflammation, but increasing the body's production of synovial fluid, the lubricating 'oil' for the joints. Because of this compound as well as the hyaluronic acid, many people will experience an almost immediate benefit from the Plus Motion – experiencing better flexibility within a few days.

Collavant n2®: This is a natural compound that is bio-identical to human type II collagen. Taking the Collavant n2 has the effect of 'teaching' the body to preserve joint cartilage. This reduces our own body's destruction of cartilage while the other components in the formulation help to build new cartilage and connective tissue. This allows the Plus Motion to work MUCH FASTER than other joint products in improving joint integrity and structure.

Tendaxian®: This is the first EVER supplement clinically proven to improve tendon health. Tendaxian uses mucopolysaccharides along with hydrolyzed collagen to allow the body to rebuild tendon structure over time. This helps to maintain the biochemical properties of the tendons while promoting healthy tendon structure. This will optimize the results of physical therapy or physical exercise. By normalizing tendon structure, Tendaxian reduces tendinopathy discomfort and speeds up the recovery time for any connective tissue trauma. The result is healthier joints and greater range of motion.

***Detoxolite™*:** This is Avini's micronized and activated clinoptilolite zeolite that detoxifies while improving nutritional absorption and utilization.

In all, Avini's Plus Motion is an amazing new and innovative product that will help in preventing cartilage loss, increasing cartilage production, and improving joint strength and flexibility – while reducing inflammation and, for the first time ever, improve tendon structure and function. Avini's Plus Motion is the most complete joint and connective tissue supplement ever created.

Avini's Plus Motion – get moving again!

Rik J. Deitsch, MS Biochemistry

"USING THIS SIMPLE SYSTEM AND HOSTING ONE TO TWO HOME PARTIES IN YOUR FIRST 30 DAYS WILL HELP YOU ACHIEVE THE AVINI ACCELERATOR™ DESIGNATION..."

MESSAGE FROM

Mickey Dillon, Sr. VP of Sales & Marketing

There are many sayings in our industry. One of my favorites is "don't try to reinvent the wheel." So many of us do our best to prejudge and figure out exactly what we should say or give to our prospect. What the above saying means is that there is a simple duplicatable system that has been proven over decades, so don't try to come up with some new plan, scheme, or idea that doesn't follow the system. I know this begs the question: What is the system? The system is, and always will be, **Step 1:** invite someone to take a look at our business and products. The key to this invitation is to create curiosity and not satisfy it. This step will also include having your first home parties in your first 30 days. The parties allow you to show the video, The Avini Experience™, to a group of people at once with the help of a team member and get your business off to a fast start. If you tell your prospect too much in the inviting process, they will make a predetermined decision based on what they think it is. Our new video, The Avini Experience™, tells the same perfect story every time both from a business standpoint and a product standpoint. It is the only initial introduction tool you need to succeed in Avini.

Step 2 in the system is to follow up with your prospect at a specific time within 48 hours using a three-way call with one of your team members. This is where you will find out from your prospect what they liked most about the video, and your third-party partner will do most of the talking. By utilizing the three-way call, you will learn the business if you are new and also teach the prospect that this is a team effort. **Step 3** is to get a decision. The video outlines the three positive decisions your prospect can make. If they are not interested at all, they will let you know and you can put them down to contact again in three to six months. Using this simple system and hosting one to two home parties in your first 30 days will help you achieve the Avini Accelerator™ designation and set you on the path of becoming a major leader in Avini.

Your Partner,

Mickey Dillon

Mickey Dillon

WEIGHT MANAGEMENT
MADE SIMPLE!

At Avini Health®, the Avini Weight Management System was built to help people experience real, sustainable change. Success stories like this one aren't accidental. They come from consistency, the right products, and showing up for yourself day after day. Stephanie Cook is proof.

"I'll be honest – I didn't walk into Avini as a believer. I came to a meeting my parents were hosting with my arms crossed, ready to be unimpressed. I left wanting to know more.

Weight has always been one of my biggest battles, and not for the reasons people assume. I'm active – I average around 17,000 steps a day – and I'm mindful of what I eat. But the scale never told the whole story.

Last year I jumped on the company's 90-day challenge because I love a good challenge, and I saw real progress. Then life happened – the holidays, the everyday – and a little of it crept back. By the time we got to Summit in February, I was frustrated and ready for a reset. That's when I started the new **+TrimScience® Capsules.**

I took a 'before' photo and committed to another 90 days. Here's what surprised me: the scale barely moved, but everything else did. My arms got slimmer. My stomach slimmed down. My legs leaned out. Even my face changed – I have a jawline I didn't have before. I was stronger and more defined, and I hadn't added a single weight-training session. I was simply living my life and staying consistent – carbs and all.

That was the biggest lesson for me: it's not always about the number on the scale. Sometimes it's about how your body is changing, how your clothes fit, and how you feel. I'm healthier and happier than I've ever been, and my journey is still going.

I AM AVINI!"

AVINI Live!

THANK YOU TO EVERYONE WHO SHOWED UP AND SHOWED OUT!

May 15th–16th went down in Avini history — and if you were in Boca, you felt it. The 2026 Boca Regional wasn't just an event. It was the launch of a new era. A revamped, reimagined, redefined Avini Experience™ — and you were there for the very first one.

Exclusive education that hit different. Connections that are already turning into momentum. And a behind-the-scenes look at Avini's newly expanded facility that left jaws on the floor.

From the moment it began, the energy was electric — real conversations, powerful connections, and a room that knew it was witnessing something brand new.

You came. You connected. You witnessed what's next.

AND WE'RE JUST GETTING STARTED.

The Avini Experience™ is officially in motion. Are you in?

AVINI LIVE

ARE YOU AN AVINI ACCELERATOR™ YET?

AVINI EXPERIENCE Accelerator

Reaching Accelerator status is the first big milestone on the Avini journey — a sign that you've buckled up, built real momentum, and earned your Avini Accelerator™ Pin.

How To Become An Avini Accelerator™

Avini Accelerator™ is the first destination you want to attain as a new Distributor. It is the focal point of our very simple, duplicatable system that allows you and your organization to build momentum and confidence.

1 **To become an Avini Accelerator™, you need to enroll as a Distributor with Avini at either the $499 or $999 level.**

2 **Enroll in the Autoship Reward Points Program with a minimum of 100 Points.**

3 **Then, in your first 30 days and with the help of your enroller, you want to enroll 3 Distributors. This will make you an Avini Accelerator™. A fast start to Avini Accelerator™ is hosting an Avini Experience™ Party, or two, in your first 30 days. Your enroller will help you plan them!**

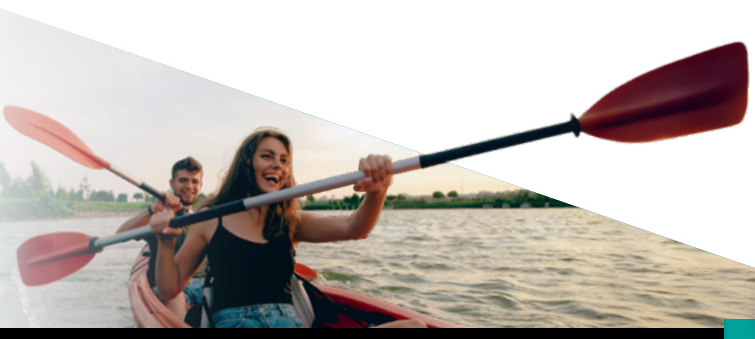

4 **If the 3 Distributors you enroll come in with the same Avini Advantage™ Pack that you did, you will make all of your initial investment back in fast start bonuses.**

5 **You will then start the simple system of creating Avini Accelerators with the 3 Distributors you enrolled. Duplicating this simple process will create fast growth and momentum in your organization.**

6 **Your goal is for you and your organization to create new Avini Accelerators in your organization monthly, helping you and your team advance in rank quickly and create your Avini Stories.**

Avini Accelerators will have special recognition in the monthly newsletter, on Conference calls, Zooms and all Avini events. You will receive a specially crafted Avini Accelerator™ Pin, have special training calls specifically for Accelerators, receive special gifts such as Reward Points, Swag, Hotel Credits for events, etc.

Becoming and creating Avini Accelerators is the backbone of the Avini Experience™ and culture of Avini.

Let's all buckle up and build Avini into an **AVINI ACCELERATOR™** machine!

THE POWER OF THE PARTY:
Why Avini Experience Parties Work!

Message from
MJ Durkin, Master Vision Holder

On June 1st, we unleashed a powerful re-brand of Avini. We introduced an accelerated compensation plan, a stellar new 9-minute video, and the Avini Accelerator Recognition Program that is designed to help every Distributor grow faster and achieve more success. The excitement around these improvements has been tremendous and I believe we're entering one of the most exciting periods in Avini's history.

Can I make a recommendation?
Host parties. Attend parties. Help your Distributors host parties. Whether they're in your living room, your Sponsor's home, a coffee shop, a community room, or on Zoom, I want to encourage you to make Avini Experience Parties a major part of your business strategy.

Why?

Because parties work.

In fact, I believe there are three major reasons why Avini Experience Parties help people become Customers, Preferred Customers, and Distributors faster than almost anything else we can do.

First, parties help people see the full picture of Avini.

For years we've been "dripping" information to people and helping them have wonderful experiences with our products. That's important and it will always be important. However, when someone attends an Avini Experience Party, they get to see the totality of what Avini is all about. They begin to understand that Avini is not simply a company with outstanding products. They discover that Avini is also a vehicle that can help them create an additional income stream, build a team, develop leadership skills, and potentially transform their financial future.

When prospective Distributors hear real people sharing their stories, watch the new 9-minute Avini video, and listen to testimonials from people who are building the business, they begin to see a much larger opportunity. Instead of seeing one piece of Avini, they get a 360-degree view of what is possible. Many people never seriously consider becoming a Distributor until they attend a party and realize that they can actually see themselves doing this business.

Second, the energy in the room is contagious.

Have you ever noticed that enthusiasm spreads? When you walk into a room full of positive people who are excited about what they're doing, it's hard not to get swept up in that energy. That's exactly what happens at a great Avini Experience Party.

When your current Distributors are in the room sharing stories, celebrating successes, and talking about the people they're helping, guests can feel that excitement. Potential Distributors need to see proof. They need to see that real people are building businesses, earning income, helping others improve their health, and creating a brighter future for themselves and their families.

The positive mood, the optimism, and the "YES" vibration that fills the room are powerful. It's catchy. It's inviting. When people see others overcoming health challenges, finding solutions to financial pressures, and creating momentum in their lives, they naturally begin to wonder if they can do the same thing. That's often the moment when a guest decides to become a Retail Customer, a Preferred Customer, or a Distributor.

As our stupendous new video asks: "Are you a 1, a 2, or a 3?"

Third, people are hungry for connection, friendship, and fun.

Let's face it. We live in a world where many people feel disconnected. They want more friendships. They want more positive influences in their lives. They want to spend time with people who are optimistic, encouraging, and moving forward.
An Avini Experience Party provides all three.

The atmosphere is positive. The conversations are uplifting. The stories are inspiring. People laugh together, learn together, and begin building relationships that often extend far beyond the products or the business opportunity. People love to follow people who are optimistic and having a good time. When your guests see people genuinely enjoying themselves while helping others and creating income, they naturally want to become involved at some level.

The bottom line is simple. When people see the full picture, experience the positive energy, and discover a community of people they enjoy being around, they make decisions faster. They sign up as a 1, a 2, or a 3 and they get started.

The Avini Experience Party is a winner. It creates momentum, builds belief, develops leaders, and helps people take action. So my advice is simple: Party. Party. And then party some more!

The Avini Experience Party will help build your business, strengthen your team, and create the kind of growth that every Distributor is looking for. And it just might make you a winner, too.

MJ Durkin
