

StepNpull®

StepNpull® is a foot operated door opener that works on any latch-less commercial wood or metal door. Available in three stylish finishes.

OPENING DOORS *one step at a time*

THE FINAL STEP IN SANITATION.

When you invest in making your restrooms touch free, yet your customers are still having to touch the dirty door handle, what's the point?

StepNpull® foot operated door openers offer a low-cost and effective way to ensure your customers have a germ-free option when exiting your restroom.

Simply step and pull, it's that easy!

- Open the door without touching the handle
- Reduce the spread of germs
- Reduce or eliminate paper towel expenses
- Perfect compliment to any hand dryer
- Low one-time cost designed to last
- Gain customer appreciation
