Projects					
	Warehouse Project ID	GUID	Required	Inferred (syste Unique identifier for projects within the CAD	Primary key for the project as a logical entity; can be exposed to user but as a read only label
Projects	Current Registry	Registry Picklist, Single Select	Required	User Input Name of the reigstry that currently hosts the	The name of the registry that currently hosts the project
Projects	Project ID	String	Required	User Input Identifier used to track the project in the current User Input The registry that originally hosted the project. If it	Project ID assigned to the project by the hosting registry Name of registry where the project was previously listed, if different from current registry
Projects Projects	Registry of Origin Origin Project ID	Registry Picklist, User Entry String	Optional Optional	User Input Ine registry that originally hosted the project. If it User Input Identifier used to track the project in the registry	Name or registry where the project was previously isted, in omerent from current registry Project ID assigned to the project by the origin registry Project ID assigned to the project By the origin registry Project ID assigned to the project By the
Projects	Program	String	Optional	User Input Use this field to categorize the project in the registry	r roject to assigned to the project by the origin registry if defined by registry due to use of programmatic structure by the registry
Projects	Project Name	String	Required	User Input The name of the project	Name of he project in the hosting registry
Projects	Project Link	URL	Required	User Input Place a URL link to the project website or website	External link to project on the registry's website
Projects	Project Developer	Multi-String	Required	User Input Enter the name(s) of the developer(s) associated	Ordered collection of names of developers involved in the project; Users will enter developer names during initial project data entry
Projects	Sector	Sector Picklist, Multi-Select	Required	User Input Select the industry sector which the project is	The industry sector that this project is targeting
Projects	Project Type	Project Type Picklist, Multi-Select		User Input Select the corresponding type to describe the	Registry-specified descriptor(s) of the Type of a project
Projects Projects	Project Tags	Multi-String Picklist, "Inside NDC", "Outside N	Optional	User Input Add any tags, separated by commas, to apply to	Collection of registry-defined, searchable metadata tags
Projects Projects	Covered by NDC NDC Information	String	Optional	User Input Select whether the project is covered by User Input Add text description to show how the project falls	Flag indicating whether this project is covered under the country's NDCs Registry-specified description of how the project falls under the country's NDC. Only valid if "Inside NDC" is selected.
Projects	Project Status	Status Picklist, Single Select	Required	User Input Select the status that best describes the current	Current status of the project (e.g. validated, registered, expired, etc.)
Projects	Project Status Date	Date	Required	User Input Enter the date that corresponds to the above	Calendar date when the status of the project was last updated
Projects	createdAt	API	Required	API Generated N/A	Date and time this Project record was created; autocreated by API when the record is first created
Projects	updatedAt	API	Required	API Generated N/A	Date and time this Project record was updated; autocreated by API when projects table is manipulated and when any related table is manipulated
Projects	Unit Metric	Unit Picklist, Single Select	Required	User Input Select the metric that best describes the	The metric used to assess the outcomes produced by the project (e.g. kWh, MW, tCO2, etc.)
Projects	Methodology Validation Body	Methodology Picklist, Single Select Validation Body Picklist, Single Se		User Input Select the methodology that is being used to User Input Select the validation organization that is, or will.	The monitoring methodology used for calculating outcomes The norm of the worldstire granningtion The transmission of the second se
Projects Projects	Validation Body Validation Date	Date	Optional		The name of the validating organization The calendar date the project was validated by the validating organization
Projects	Project Description	String	Optional		This field is mean to give external viewers a sense of what is being done with the project - it should excite the reader into wanting to get more information about the project.
Estimations	Warehouse Project ID	GUID	Required	Inferred from Unique identifier for projects within the CAD	Foreign key to Projects table
Estimations	Estimations ID	GUID	Required	Inferred (syste Identifier for a specific estimation attached to a	Generated by the CAD Trust, identifies the estimation record
Estimations	Period Start	Date	Required	User Input Enter the date for the beginning of the estimation	
Estimations	Period End	Date	Required	User Input Enter the date for the end of the estimation	End date for the estimated crediting period
Estimations	Unit Count	Integer	Required	User Input Enter the number of units expected from the	Estimated number of outcomes produced in the specified crediting period
Project locations	Warehouse Project ID	GUID	Required	Inferred from Unique identifier for projects within the CAD	Economic kay to Brojects table
Locations Locations	Warehouse Location ID	GUID	Required	Inferred (syste Identifier for a specific location of a particular	Foreign key to Projects table Primary key for the Location table
Locations	Country	Country Picklist, Single Select	Required	User Input Select the name of the country in which the	Country in which project is located
Locations	In-Country Region	Multi-String	Optional	User Input If applicable, please enter the region within the	Region(s) or subnational division in which project is located, if applicable
Locations	Geographic Identifier	String	Required	User Input Enter GPS coordinates, an address, or a zone (to	This gives additional specificity to where the project is being conducted. Some projects may list GPS coordinates, some may not want to disclose exact location.
Ratings	Capture independent assessment	of additional attributes of mitigat	ion activities (e.g. sus	tainable development co-benefits, project risk assessments, etc.	
•	Warehouse Project ID	GUID	Required	Inferred from Unique identifier for projects within the CAD	Foreign key to Projects table
Ratings	Project Rating ID	GUID	Required	Inferred (syste Identifier for a specific rating that is attached to a	
Ratings	Rating Type	Rating Type Picklist, Single Select Decimal			The name of rating or rating module The score received by the project on this rating module
Ratings Ratings	Rating Value Rating Range Lowest	Decimal	Required Required		me score received by the project on this rating inducte Worst score possible on this rating inducte Worst score possible on this rating module
Ratings	Rating Range Highest	Decimal	Required	User Input Enter the highest possible rating given the rating	Best score possible on this rating module
Ratings	Rating Report Link	URL	Required		Link to the rating report generated for this project by the rating module
Co Donofito	Kou objective of Article 6 is to factor i	-	supporting sustainable	development and environmental integrity. SDG benefits could be listed	and when available provide information as its unification
	Warehouse Project ID	GUID	Required	Inferred from Unique identifier for projects within the CAD	Unique identifier for projects within the CAD Trust.
Cobenefits	Cobenefit	GUID	Required	Inferred (syste Identifier for a specific co-benefit associated with	lidentifier for a specific co-benefit associated with a project
Cobenefits	Cohonofit	Bicklist Lloor Entry	Ontional	Licor Input Entor the co honefit achieved with the and interest	Enter the college of the project
	Cobenefit	Picklist, User Entry	Optional	User Input Enter the co-benefit achieved with the project.	Enter the co-benefit achieved with the project.

			a .:			
	Corresponding Adjustment Status	Picklist, Not started, Pending, Cor	Optional	User Input	Select the corresponding status of the	Information whether the unit adjustment has actually taken place or not
Issuances						
Issuances	Warehouse Project ID	GUID	Required	Unique identif	Foreign key to Projects table	Foreign key to Projects table
Issuances	Issuance ID	GUID	Required	Unique identif	Primary key for the issuances table	Primary key for the issuances table
Issuances	Issuance Start Date	Date	Required	User Input	Enter the date for which units began to be issued	Date which a unit was issued
Issuances	Issuance End Date	Date	Required	User Input	Enter the date for which units stopped being	Date which a unit was ended
Issuances	Verification Approach	String	Required	User Input	Enter the verification approach that was used for	Approach used for the units in the issuance period
Issuances	Verification Report Date	Date	Required	User Input	Select the date when the report was finalized for	Calendar date when the verification was completed for a particular issuance
Issuances	Verification Body	String	Required	User Input	Enter the organization that performed the	Validating body that performed the verification for an issuance
Related Projects						
Related Projects	Warehouse Project ID	GUID	Required	Inferred from	Unique identifier for projects within the CAD	Foreign key to Projects table
Related Projects	Related Project ID	Picklist OR string	Optional	User Input	Enter the identifier used by the hosting registry	This is the project ID that was created by the registry
Related Projects	Registry	Picklist, User Entry	Optional	User Input	Enter the registry that hosts the project.	The registry that houses the project
Related Projects	Related Project Relationship Type	Picklist	Optional	User Input	Select the relationship type between these two	Information about the relationship between the projects, ex. Subset
Labels	The label denotes the eligibility of	units for particular use of what th	e unit may be used f	for. The label v	vill include voluntary and compliance type labels, i	including authorizations from sovereigns from the letter of authorization.
Labels	Warehouse Project ID	GUID	Required	identifier for	Foreign key to Projects table	Foreign key to Labels table
Labels	Label ID	GUID	Required	identifier for	Primary key for the labels table	Primary key for the Labels table
Labels	Label	String	Required	name of the	(ITMO, coursea, SDG, etc.)	Enter the name of the label that is being applied
	Label Type	Picklist, string	Required	User Input	Select the type of label that is being applied.	Describes what type of qualification is being applied: endorsement, letter of qualification, letter of authorization, letter of approval
Labels	Crediting Period Start Date	Date	Required	User Input	Enter the start date for which units are being	This is the date that describes the period of time which units are being credited.
Labels	Crediting Period End Date	Date	Required	User Input	Enter the end date for which units are being	This is the date that describes the period of time which units are being credited.
Labels	Validity Start Date	Date	Required	User Input	Enter the start date for when this label is valid.	This is the date that describes when the label is valid for
Labels	Validity End Date	Date	Required	User Input	Enter the end date for when this label is valid.	This is the date that describes when the label is valid for
Labels	Unit Quantity	Integer	Required	User Input	Enter the amount of units that this label applies to	Count of the units that this label applies to; this is important because a certain issuance might have some units that fall into a qualification and other units that don't.
Labels	Label Link	URL	Required	User Input	Enter the URL which directs to the website that	Link to the label in question
