

LN LEGACY NETWORK

GAMIFIED PERSONAL DEVELOPMENT THROUGH
AI AND BLOCKCHAIN TECHNOLOGY

PROBLEM

The Problem

- There is no system that promotes personal development content in a simple and structured way.
- The existing options are either far too expensive, take too much effort or require at least one other person.
- There is no teaching method that conveys knowledge in an interesting and engaging way that makes it even fun.
- There is no system that makes education as attractive to use as entertainment products.
