ABOUT THE BRAND

ROLS
WOOL CARPETS

Rols Carpets focuses on the manufacture of fine quality carpets and rugs for residential and commercial interiors. The key elements to our beautiful products are premium raw materials from certified sustainable sources and a dedicated workforce of skilled craftsmen, all woven with passion in Crevillent, Spain.

ABOUT NATURE PREMIUM CRAFT

Environmentally Sustainable Carpet

Billions of plastic bottles go into landfills every year, taking up to 700 years for just one plastic bottle to break down. As plastic decays, it can give off chemicals that get into our water and air, and can make people, plants, and animals sick!

Nature Premium Craft collection has the durability and versatility required for indoor/outdoor use without sacrificing beauty in its design. Our rugs are made from water-resistant yarns and comply with the tests of UV resistance and abrasiveness to ensure optimal performance in all seasons, making Nature Premium the perfect choice to enhance the function of outdoor areas.
