# The Challenge in Indian Elections

90% of candidates rely on 24-48h delayed reports, missing voter shifts

# Our AI-Powered Solution

*Run smarter, faster, and cleaner campaigns, one platform, zero silos delivering insights, reducing costs, and winning bigger across India's elections.*

# Unique Value Proposition

## Leveling the Field

Enterprise-grade tools for smaller parties

## First-Mover Advantage

India's first AI political platform

## Higher ROI

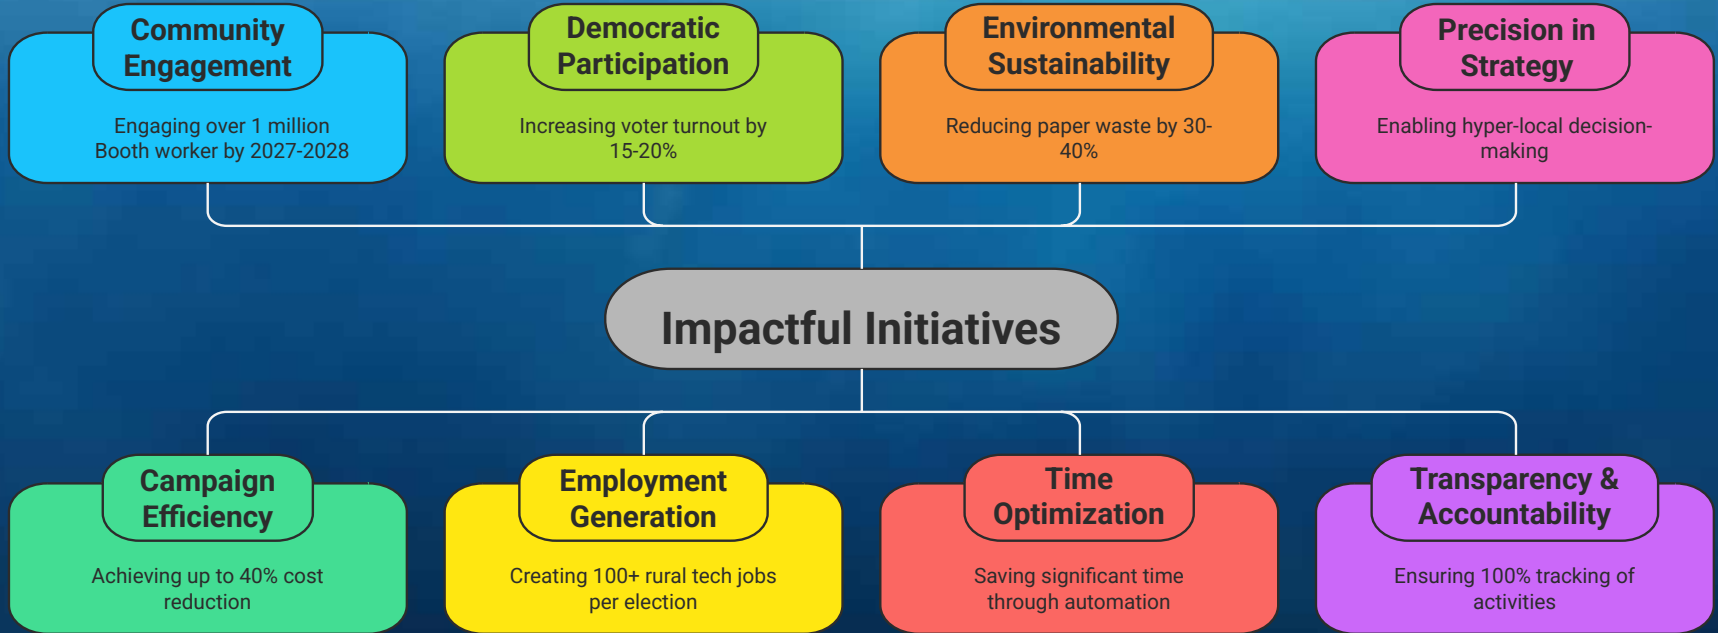

Data-driven targeting cuts costs

## AI-Driven Edge

End-to-end AI tools for campaigns

# Societal & Economic Impact

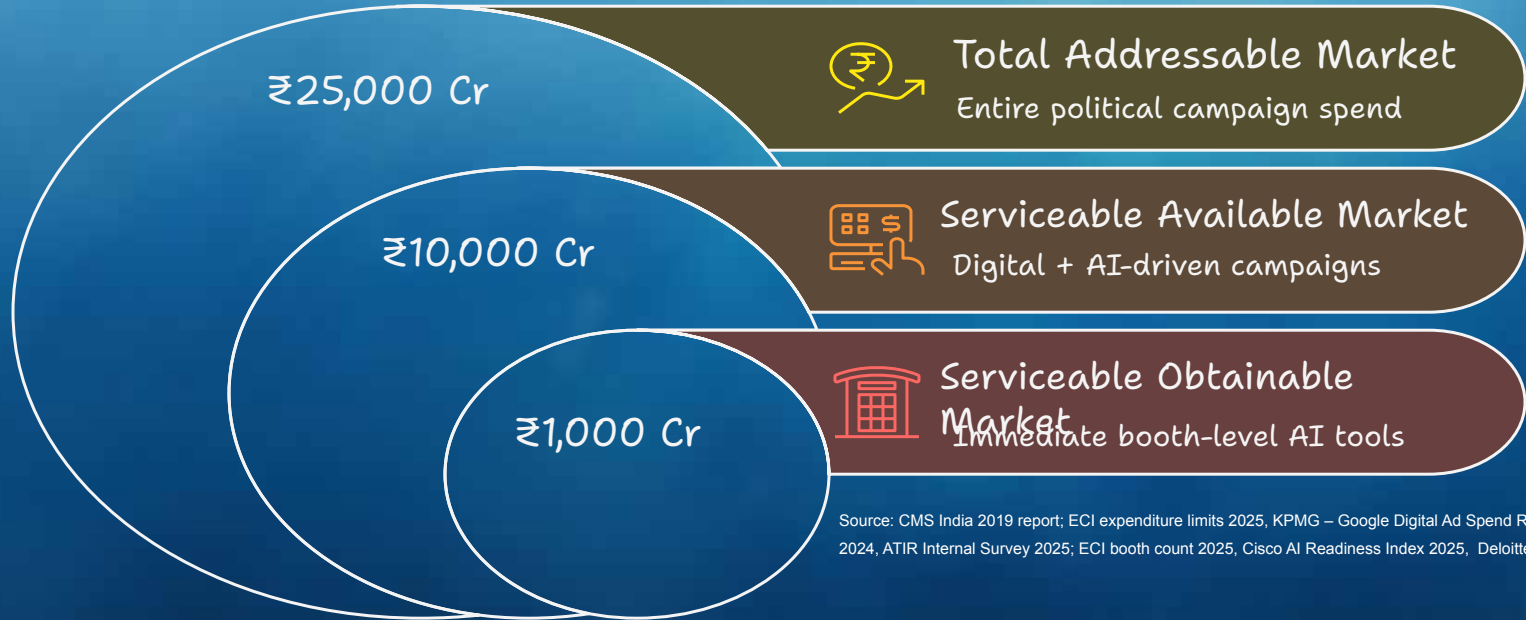

# Core Customer

Municipality Elections, Vidhansabha (State Assembly) Elections, Lok Sabha (Parliamentary) Elections

# Market Opportunity in Political Campaigns

Source: CMS India 2019 report; ECI expenditure limits 2025, KPMG – Google Digital Ad Spend Report 2023; IAMAI 2024, ATIR Internal Survey 2025; ECI booth count 2025, Cisco AI Readiness Index 2025, Deloitte India, Statista

**Why Now:** Social media and smartphone ubiquity, coupled with rising demand for data transparency, make 2025–26 ideal for disruption.

**Growth Rates:** Campaign digitization is growing ~15–20% annually. Additionally, global political-tech investment is climbing;

India leads with largest electorate.

# Competitive Landscape

**Competitors:** I-PAC, Jarvis, traditional political consultancies

**ATIR's Outcome Edge:**

- **AI Voice Outreach** – Delivers voter contact **50% faster** than manual calling, ensuring quicker issue response and campaign agility.
- **Psychographic Voter Insights** – Improves booth-level persuasion and turnout by **20%**, enabling highly targeted messaging.
- **Real-Time Volunteer Tracking** – Cuts operational costs by **40%** through live monitoring and resource optimization.

# The Brains Behind ATIR

**Kumar Basant Singh – Founder & CEO**

6 years experience | 1,000+ booths managed  
War Room Setup | Digital + Field Ops

**Meenu Singh – Founding Director**

Specialist in operations, strategic partnerships, and scaling  
field teams for high-impact political and civic projects.

**Nitesh Nandan - Tech Head**

Ex-Meesho | Distributed systems architect with  
expertise in Java, Python, C++, microservices, cloud infra,  
and Generative AI. Skilled in LangChain, system design,  
and leading high-performance engineering teams.

**Pintu Kumar – Project  
Coordinator & Team Lead**

HR & talent acquisition expert, M.A.  
HRM and B.A. Economics from  
Jamia Millia Islamia.

**Disha Vasavada –  
Product Designer**

Digital product designer with 10+  
years of UI/UX experience in  
creating intuitive.

**Shyam Nandan –  
Associate Data Scientist**

UGC-NET qualified with 3+  
years' experience in ML, deep  
learning, and data science.

**Shankar Mulakalapalli  
– Frontend Developer**

Skilled in Python, C/C++,  
Java, Django, and Bash  
scripting.

**Krishna Shaw – GenAI  
Engineer & Data Scientist**

ACM ICPC Regionalist,  
competitive programmer, certified  
AI/ML specialist with expertise in  
Generative AI.
