

Hello

And Welcome

I help founders turn ideas into structured, compliant, and scalable businesses. Most startups don't fail because of bad ideas—they fail because of poor execution, weak compliance, and wrong early decisions. My work focuses on fixing exactly that.

Currently associated with NeuSource Startup Minds India Ltd, I mentor early-stage founders and business owners across startup registration, legal compliance, business structuring, market validation, and growth execution.

My approach is honest, practical, and accountability-driven. I challenge weak assumptions, correct unrealistic plans, and focus strictly on what works in the real market—not on motivational noise.

What I work on:

- Startup & Company Registration
- Legal & Statutory Compliance
- Business Strategy & Market Fit
- Growth Execution & Risk Planning
- Founder Decision-Making & Systems

I don't believe in shortcuts. I believe in process, discipline, and long-term sustainability. If you are serious about building a real business—and open to direct feedback—I'm open to meaningful conversations.
