VASTUWALK AI

India’s emerging Life Clarity Platform | Ancient wisdom × accessible technology

INVESTOR PITCH DECK

Personalized guidance.

Designed for millions.

SEED ROUND • ₹1 CRORE FOR 10% EQUITY

The problem

Life decisions create demand for guidance — access and quality remain fragmented.

Fragmented access

Many traditional services are offline, scattered and difficult to compare.

Inconsistent delivery

Experience, language, turnaround time and report quality vary widely.

Digital opportunity

A mobile-first journey can make service discovery, purchase and delivery simpler.

VASTUWALK® AI
Life Clarity for Millions

Our solution

A guided digital experience for personal and home-related insights.

Palm Scanner

Photo-based palm intake and personalized report

Face Scanner

Face-image intake and structured insights

Home Scanner

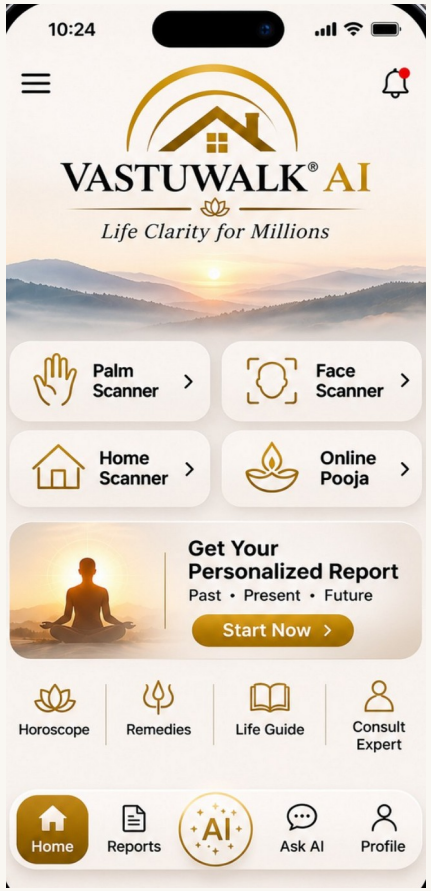

Property inputs and Vastu-oriented guidance

Online Pooja

Convenient access to spiritual services

The product vision

Clean, premium and intuitive — designed for mobile-first adoption.

ONE PLATFORM. FOUR CORE EXPERIENCES.

Palm Scanner • Face Scanner

Home Scanner • Online Pooja

AI-assisted workflows, multilingual delivery and human quality checks.

A large and growing market

India astrology-app market — third-party industry estimate, not Vastuwalk revenue.

$390M

Estimated Indian astrology-app market in 2026

$2.32B

Projected market size by 2032

34.61%

Forecast annual growth, 2026–2032

Source: MarkNtel Advisors, India Astrology App Market (August 2026). Estimates are directional; category definitions differ.

AstroTalk proves paid demand

Our primary competitive benchmark, not an indication of Vastuwalk's future performance.

₹1,823 Cr

AstroTalk FY26 operating revenue

₹222 Cr

AstroTalk FY26 net profit

~₹60.8 L

Average net profit per day: FY26 net profit ÷ 365

Reported valuation: $1 billion (August 2026 ESOP buyback benchmark).

Sources: Moneycontrol, 29 Oct 2026; Entrackr, 12 Aug 2026. Daily profit is calculated, not a reported daily figure.

Our positioning

A differentiated product thesis within the wider digital guidance ecosystem.

ASTROTALK | Established leader

Astrology consultations via chat, calls and video; expanding into spiritual commerce and services.

VASTUWALK AI | Emerging challenger

Scanner-led digital experiences, personalized reports, Vastu analysis, remedies and Online Pooja.

Product differentiation is a strategy, not yet proof of defensibility or predictive accuracy.

Early traction

Founder-reported validation from direct-response marketing and WhatsApp delivery.

₹6 LAKH

Revenue reported across four months in the original pitch deck. Reconcile with latest books before investor diligence.

REPEAT INTEREST

Customers acquired through Facebook Ads and WhatsApp; founder reports repeat demand. Customer count, CAC and retention need validation.

VASTUWALK® AI
Life Clarity for Millions

Business model & go-to-market

A transaction-led model with opportunities for higher-value services.

Acquire

Performance marketing, referrals, regional-language outreach

Convert

Paid digital reports and convenient mobile-first checkout

Expand

Premium reports, remedies, Online Pooja and repeat engagement

The founding team

Founder-led execution backed by traditional domain knowledge.

DWARKESH SHARMA

Founder

NEERAJ VERMA

Co-Founder

Why this team can execute

Combining founder-led customer acquisition with a traditional knowledge base.

Commercial execution

Founder-led marketing, early paid transactions and customer feedback loops.

Domain knowledge

Founder’s father brings 50 years of traditional experience; goal is to codify workflows with human review.

VASTUWALK® AI
Life Clarity for Millions

The ₹1 crore plan

Proposed allocation of the seed round — subject to milestones and diligence.

App & technology	**₹25L**
Marketing & acquisition	**₹35L**
AI / R&D / quality	**₹15L**
Team & operations	**₹15L**
Compliance & contingency	**₹10L**

Investment opportunity

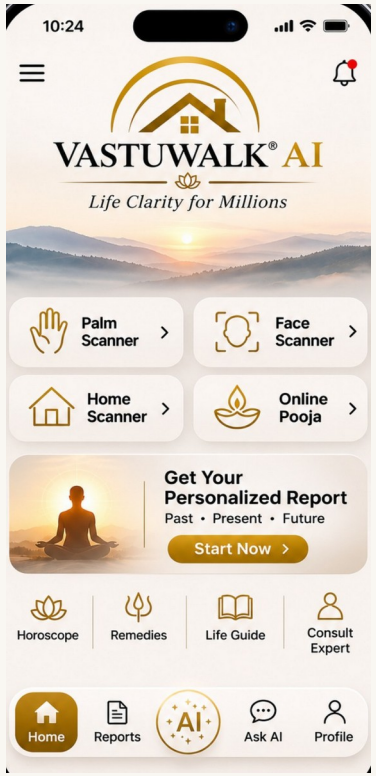

Help build a trusted, multilingual Life Clarity Platform.

₹1 CRORE

FOR 10% EQUITY

₹9 Cr pre-money valuation

₹10 Cr post-money valuation

Milestones & execution priorities

A proposed six-month plan; targets are not guarantees.

0–2 months

Corporate readiness, product scope, prototype, report QA and baseline metrics.

2–4 months

Build and test core flows, launch limited pilot, measure conversion and delivery cost.

4–6 months

Improve repeat engagement, language coverage and unit economics; prepare scale decisions.

Sources & investor notes

Transparent evidence matters more than aggressive projections.
