About the Mentor

If paperwork had a superhero — she'd probably wear a blazer instead of a cape.
Meet **CS Varsha Vijayran**, the startup world's go-to expert for turning *legal chaos into corporate calm*.

A perfectionist by profession and a problem-solver by passion, Varsha helps founders navigate the labyrinth of ROC filings, legal compliance, and corporate governance — without losing their minds (or their DINs). She's that rare mix of *compliance precision* and *startup empathy* — she knows the rules, but she also knows the hustle.

"I don't make laws fun — I just make them less painful."
