

DealersKart

Powering Healthcare with Smart Procurement

Company Overview

DealersKart is a technology-driven Healthcare Procurement Operating System built specifically for healthcare dealers and distributors. Our platform connects verified manufacturers, importers and dealers through a structured procurement workflow, making sourcing faster, smarter and more reliable.

Industry Challenge

Healthcare procurement in India is highly fragmented. Dealers spend significant time searching suppliers, validating products, negotiating commercial terms and managing procurement manually, leading to delays, inconsistent pricing and missed opportunities.

Our Solution

DealersKart digitizes the complete procurement journey through four intelligent pillars:

Product Intelligence	Verified product information
Commercial Intelligence	Optimized commercial quotations
Procurement Memory	One-click repeat procurement
Workflow Automation	RFQ to delivery visibility

Business Model

DealersKart follows an asset-light, technology-led business model. We build a verified ecosystem of manufacturers, importers and healthcare dealers and generate revenue from successful procurement transactions.

Key Highlights

400+	Active Dealers
100+	Verified Healthcare Products
14+ Years	Healthcare Industry Experience
Pan India	Growing Dealer Network
Vision	India's Most Trusted Healthcare Procurement Operating System

Why DealersKart?

- Verified supplier ecosystem
- Structured RFQ management
- Faster procurement decisions
- Better commercial outcomes
- Scalable technology platform for healthcare procurement
