Eco Jolly trolley cleaners cart

A general purpose cart made from hardwearing recycled plastic with an optional lockable box for safely storing chemicals.

A superb cart for janitorial cleaners made from 73% recycled plastic designed for general purpose use.

Easy to maintain and clean, the trolley features a push handle with comfort grip, along with large wheels for uneven surfaces.

It has three in-built shelves so there is plenty of room to carry all of the essential cleaning products, and a built-in hanger, lid and 60 litre vinyl bag (included).

The trolley is available with an optional, metal lockable box for the safe storage of cleaning chemicals (supplied separately).

Each trolley will save nearly 8kg of virgin plastic reducing the use of virgin plastic across all Jolly Trolleys by around 30 tonnes each year; a similar weight to a shipping container or refuse lorries.

Key features & benefits

General purpose

Recycled plastic

Lockable
