

PRODUCT INFORMATION

-  **No batteries**, V-Air[®] SOLID is free of batteries and propellants. It is also carbon neutral and carbon footprint approved by Carbon Footprint Ltd.
-  **Sub-micron technology**, V-Air[®] SOLID particles enable superior fragrance delivery, yet are sized typically below 1.0 micron. This means they are much smaller and lighter than the particles in other fragrance systems, remaining airborne for many hours.
-  **Multi-phasing**, the V-Air[®] SOLID unique outer capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different.
-  **Just three parts**, the technology behind V-Air[®] SOLID is packed into one powerful refill component, so we've done the hard work for you – no fuss, just fragrance.
-  **No liquids. No leaks**, V-Air[®] SOLID contains no liquids so won't spill or leak, even if it's knocked over.
-  **Multi-phasing fragrances**, V-Air[®] SOLID refills are part of the Professional Passive Program – providing matching fragrances across different aircare systems.

Fragrance Refills

V-Air® SOLID Evolution refills are created using a unique outer capsule and a fragrance core.

The outer capsule is infused with high quality perfumes, then complemented by an integrated organic carrageenan internal fragrance core.

These combine and diffuse powerful key fragrance notes that are subtly different.

The diffusion rate of fragrance moving through the outer capsule is much different to the fragrance evaporating from the surface of the fragrance core.

This means that the start fragrance transforms into something very different over time.

These blends of complementary but differing fragrance notes specifically eliminate fragrance fatigue in a revolutionary way, all from one single passive aircare system.

The refill is recyclable.

Specifications

Dimensions
(H x W x D) mm
144 x 70 x 63

Operation
Operating without the use of batteries or propellants.

Organic gel core
Extracted from natural red seaweed (carrageenan).

Fragrance Life
Fragrance life of up to 60 days.

Material
PP Material (polypropylene)
