

# PRODUCT FICHE

|  |                        |
|--|------------------------|
| Model Number                           | IG3960                 |
| Climate Class                          | N,ST                   |
| Refrigerator Interior Temperature (°C) | 0 - 10                 |
| Total Net Capacity (Litres)            | 92                     |
| Voltage (V)                            | 220 - 240              |
| Frequency (Hz)                         | 50                     |
| Rated Current (A)                      | 0.7                    |
| Wattage Power                          | 60W                    |
| Energy Rating                          | A+/F                   |
| Noise (dB)                             | 41                     |
| Refrigerant                            | R600a / 24g            |
| Blowing Gas                            | C5H10                  |
| Net Weight (kg)                        | 19                     |
| Gross Weight (kg)                      | 21.5                   |
| Dimensions (mm)                        | H 480 x W 450 x D 85 I |
