

# SAFETY DATA SHEET

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Important information                    | *** This Safety Data Sheet is only authorised for use by HP for HP Original products. Any unauthorised use of this Safety Data Sheet is strictly prohibited and may result in legal action being taken by HP. *** |
|--|---|
| 1.1. Product identifier                  |   |
| Trade name or designation of the mixture | CC641 Series  |
| Registration number                      | -   |
| Synonyms                                 | None.   |
| Issue date                               | 15-May-2015   |
| Version number                           | 08  |
| Revision date                            | 19-Jan-2021   |
| Supersedes date                          | 22-Dec-2020   |
| 1.2. Relevant identified uses of         | the substance or mixture and uses advised against   |
| Identified uses                          | Inkjet printing   |
| Uses advised against                     | None known.   |

## **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification as hazardous according to Regulation (EC) 1272/2008.

2-pyrrolidone: Specific Concentration Limits, Reproductive toxicity Category 1B, fertility or the unborn child 3%. Mixture classification threshold based on data related to developmental toxicity in animals. No adverse effects on sexual function or damage to fertility have been observed in an animal study. See Section 11.

### 2.2. Label elements

### Label according to Regulation (EC) No. 1272/2008 as amended

| <b>U U U</b>                   |  |
|--------------------------------|--|
| Hazard pictograms              | None.  |
| Signal word                    | None.  |
| Hazard statements              | The mixture does not meet the criteria for classification.             |
| Precautionary statements       |  |
| Prevention                     | Not available.   |
| Response                       | Not available.   |
| Storage                        | Not available.   |
| Disposal                       | Not available.   |
| Supplemental label information | Contains 1,2-Benzisothiazolin-3-one. May produce an allergic reaction. |

Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present this carcinogenic risk. None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA. Potential routes of overexposure to this product are skin and eye contact. Inhalation of vapor and ingestion are not expected to be significant routes of exposure for this product under normal use conditions. Complete toxicity data are not available for this specific formulation.

### **SECTION 3: Composition/information on ingredients**

### 3.2. Mixtures

immediate medical attention and special treatment needed

### **SECTION 5: Firefighting measures**

| General fire hazards                                       | Not available.                    |
|--|-----------------------------------|
| 5.1. Extinguishing media                                   |                                   |
| Suitable extinguishing media                               | CO2, water, dry chemical, or foam |
| Unsuitable extinguishing media                             | None known.                       |
| 5.2. Special hazards arising from the substance or mixture | Not available.                    |
| 5.3. Advice for firefighters                               |                                   |
| Special protective equipment for firefighters              | Not available.                    |
| Special fire fighting<br>procedures                        | Not available.                    |
| Specific methods   | None established.                 |

## **SECTION 6: Accidental release measures**

| 6.1. Personal precautions, protection                                   | ctive equipment and emergency procedures  |
|---|---|
| For non-emergency<br>personnel  | Wear appropriate personal protective equipment.   |
| For emergency responders  | Not available.  |
| 6.2. Environmental precautions  | Do not let product enter drains. Do not flush into surface water or sanitary sewer system.  |
| 6.3. Methods and material for<br>containment and cleaning up            | Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps. |
| 6.4. Reference to other sections  | Not available.  |
| SECTION 7: Handling and   | storage   |
| 7.1. Precautions for safe handling                                      | Avoid contact with skin, eyes and clothing.   |
| 7.2. Conditions for safe<br>storage, including any<br>incompatibilities | Keep out of the reach of children. Keep away from excessive heat or cold.   |
| 7.3. Specific end use(s)  | Not available.  |
| SECTION 8: Exposure cor   | ntrols/personal protection  |

8.1. Control parameters

| Occupational exposure limits         | No exposure limits noted for ingredient(s).                |
|--------------------------------------|--|
| Biological limit values              | No biological exposure limits noted for the ingredient(s). |
| Recommended monitoring<br>procedures | Not available.   |

### Derived no effect levels (DNELs)

# **SECTION 11: Toxicological information**

| General information          | Not available.   |
|------------------------------|--|
| Information on likely routes | of exposure  |
| Inhalation                   | Under normal conditions of intended use, this material is not expected to be an inhalation hazard. |
| Skin contact                 | Contact with skin may result in mild irritation.   |
| Eye contact                  | Contact with eyes may result in mild irritation.   |
| Ingestion                    | Health injuries are not known or expected under normal use.  |
| Symptoms                     | Not available.   |
| 11.1. Information on toxicol | ogical effects   |
| Acute toxicity               | Based on available data, the classification criteria are not met.                                  |

| Components   | Species   | Test Results  |
|--|---|---|
| 2-pyrrolidone (CAS 616-45-5)                       |   |   |
| Acute  |   |   |
| Oral   |   |   |
| LD50   | Rat   | > 5000 mg/kg  |
| Skin corrosion/irritation                          | Based on available data, the  | classification criteria are not met.  |
| Serious eye damage/eye<br>irritation               | Based on available data, the  | classification criteria are not met.  |
| Respiratory sensitization                          | Based on available data, the  | classification criteria are not met.  |
| Skin sensitization                                 | Based on available data, the  | classification criteria are not met.  |
| Germ cell mutagenicity                             | Based on available data, the  | classification criteria are not met.  |
| Carcinogenicity                                    | Based on available data, the  | classification criteria are not met.  |
|  | 2B) and by the State of Califo<br>organizations indicate that ex<br>bound within a product matrix<br>bound form in this preparation | a carcinogen by the IARC (possibly carcinogenic to humans, Group<br>rnia under Proposition 65. In their evaluations of carbon black, both<br>posure to carbon black, per se, does not occur when it remains<br>, specifically, rubber, ink, or paint. Carbon black is present only in a<br>n. None of the other ingredients in this preparation are classified as<br>GIH, EU, IARC, MAK, NTP or OSHA. |
| Reproductive toxicity                              | Based on available data, the  | classification criteria are not met.  |
|  | pregnant test animals (OECD<br>Uptake by people of small do<br>has not caused adverse effect  | nt showed developmental effects only at high doses that were toxic to<br>Testing Guideline 414: Prenatal Developmental Toxicity Study).<br>ses is not expected to cause developmental toxicity. This component<br>ts on sexual function or damage to fertility in an animal study (OECD<br>ded One-Generation Reproductive Toxicity Study).   |
| Specific target organ toxicity - single exposure   | Based on available data, the  | classification criteria are not met.  |
| Specific target organ toxicity - repeated exposure | Based on available data, the  | classification criteria are not met.  |
| Aspiration hazard                                  | Based on available data, the  | classification criteria are not met.  |
| Mixture versus substance information               | Not available.  |   |
| Other information                                  |   | t available for this specific formulation<br>al health effects and Section 4 for first aid measures.  |

## **SECTION 12: Ecological information**

12.1. Toxicity

Not expected to be harmful to aquatic organis

| Aquatic toxicity  | Not expected   | to be harmful to aquatic organisms.  |                      |
|---|----------------|--------------------------------------|----------------------|
| Product   |                | Species                              | Test Results         |
| CC641 Series  |                |                                      |                      |

# Safe Use of Mixture Information (SUMI)

# Water Based Ink: WB01 \*English\*

#### Disclaimer

This SUMI is a generic document for communicating conditions of safe use of a product in response to the REACH obligation. This document relates only to conditions of safe use and is not specific to a product. By adding this SUMI to a specific product SDS, the importer/formulator declares that the mixture can safely be used following the instructions below. Following occupational health legislation, the employer of workers remains responsible for communicating relevant use information to employees. When developing workplace instructions for employees, SUMI Sheets should always be considered in combination with the SDS and the label of the product. Derived No Effect Levels (DNEL) and Predicted No Effect Concentration (PNEC) values of substances derived from the Chemical Safety Assessment (CSA) will be given in section 8 of the SDS.

The REACH registration number(s), where applicable, completes an extended product SDS.

| , , , , , , , , , , , , , , , , , , ,       | 3, where upplicable, completes an extended product 3D3.  |
