

BEER PIPELINE CLEANER

- Non-tainting and odourless
- Cleans and sterilises plastic and stainless steel
- Keeps beer in top condition

USES

A beer pump and pipeline cleaner that kills bacteria and yeasts, ensuring that beer stays in top condition.

A powerful, colourless and odourless blend of caustic soda and sequestrants designed to clean beer pumps and pipelines quickly and efficiently.

Cleans and sterilises all plastic and stainless steel beer pumps, pipelines and tanks within the brewing industry.

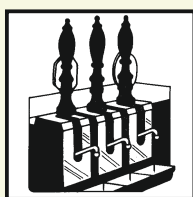

Ideal for use in all breweries, pubs and bars.

DIRECTIONS

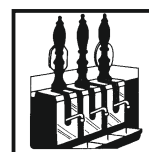

As *Beer Pipeline Cleaner* contains a high level of Caustic Soda, always take extreme caution when handling it.

Dilute *Beer Pipeline Cleaner* at a ratio of 1 part to 60 parts warm or cold water - using warm water will increase the cleaning action. Fill the system with the solution and leave to soak for 30 minutes. Rinse the system thoroughly with cold water.

Use Litmus paper to ensure that *Beer Pipeline Cleaner* has been rinsed away thoroughly. If the Litmus paper turns blue, *Beer Pipeline Cleaner* is still present in the system and more rinsing is required.

AREAS OF USE

Beer Pipes

DILUTIONS

BEER PIPELINE CLEANER : WATER	1:60
