

# SAFETY DATA SHEET

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

	-	
1.1. Product identifier		
Trade name or designation of the mixture	CN625Series	
Registration number	-	
Synonyms	None.	
Issue date	08-Jun-2013	
Version number	07	
Revision date	18-Jan-2019	
Supersedes date	06-May-2016	
1.2. Relevant identified uses of	the substance or mixture and uses advised against	
Identified uses	Inkjet printing	
Uses advised against	None known.	
1.3. Details of the supplier of the	ne safety data sheet	
	HP Inc. UK Limited	
	Cain Road, Amen Corner	
	Bracknell, Berkshire RG12 1HN	
	United Kingdom	
Telephone	44 (0) 879 013 0790	
HP Inc. health effects line		
(Toll-free within the US)	1-800-457-4209	
(Direct)	1-760-710-0048	
HP Inc. Customer Care Line		
(Toll-free within the US)	1-800-474-6836	
(Direct)	1-208-323-2551	
Email:	hpcustomer.inquiries@hp.com	
1.4 Emergency telephone number	0207771 5307	

#### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

#### Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

#### 2.2. Label elements

Ρ

S

#### Label according to Regulation (EC) No. 1272/2008 as amended

<b>U U U</b>	,
Contains:	2-pyrrolidone, Carbon black, Water
Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Not available.
Response	Not available.
Storage	Not available.
Disposal	Not available.
Supplemental label information	None.

Complete toxicity data are not available for this specific formulation. Potential routes of overexposure to this product are skin and eye contact. Inhalation of vapor and ingestion are not expected to be significant routes of exposure for this product under normal use conditions.

Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present this carcinogenic risk. None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA.

### **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

#### **General information Chemical name** CAS-No. / EC No. **REACH Registration No.** Index No. % Notes Water 70-80 7732-18-5 231-791-2 **Classification:** 2-pyrrolidone <15 616-45-5 01-2119475471-37-XXXX 210-483-1 **Classification:** Eye Irrit. 2;H319 Carbon black <5 1333-86-4 01-2119384822-32-XXXX 215-609-9 **Classification: Composition comments** This ink supply contains an aqueous ink formulation. Carbon black is present only in a bound form in this preparation. **SECTION 4: First aid measures General information** Not available. 4.1. Description of first aid measures Move to fresh air. If symptoms persist, get medical attention. Inhalation Skin contact Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists. Eye contact Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists get medical attention. If ingestion of a large amount does occur, seek medical attention. Ingestion Not available. 4.2. Most important symptoms and effects, both acute and delayed Not available.

4.3. Indication of any immediate medical attention and special treatment needed

### **SECTION 5: Firefighting measures**

General fire hazards	Not available.
5.1. Extinguishing media	
Suitable extinguishing media	Dry chemical, CO2, water spray or regular foam.
Unsuitable extinguishing media	None known.
5.2. Special hazards arising from the substance or mixture	Not available.
5.3. Advice for firefighters	
Special protective equipment for firefighters	Not available.
Special fire fighting procedures	Not available.
Specific methods	None established.

# **SECTION 6: Accidental release measures**

Inhalation       17.1 mg/m3       Systemic long term         Oral       5.2 mg/kg bw/d       Systemic long term         Oral       33.3 mg/kg bw/d       Systemic acute short te         Oral       277 mg/kg bw/d       Systemic long term         Vorkers       Dermal       277 mg/kg bw/d       Systemic acute short te         Dermal       10 mg/kg bw/d       Systemic long term       Systemic long term         Inhalation       57.8 mg/m3       Systemic long term       Systemic long term         Inhalation       1.75 mg/m3       Local long term       Inhalation       1.75 mg/m3       Local long term         Inhalation       1.75 mg/m3       Local long term       Inhalation       1 mg/m3       Systemic long term         Vorkers       Inhalation       1.75 mg/m3       Local long term       Inhalation       1 mg/m3       Systemic long term         Predicted no effect concentrations (PNECs)       Vorkers       Inhalation       1 mg/m3       Systemic long term         2-pyrrolidone (CAS 616-45-5)       Not applicable       Freshwater       0.5 mg/l       Releases         Marine water       0.05 mg/l       Sediment       0.4205 mg/kg       Freshwater         Soil       0.0612 mg/kg       Freshwater       Soil       0.0612 mg/kg<						
6.2. Environmental precautions       Do not let product enter drains. Do not flush into surface water or sanitary sewer system.         6.3. Mathods and material for containment and cleaning up or diatomaceous searth, commencial sorbenis, or recover using pumps.       Not available.         6.4. Reference to other sections       Not available.       Not available.         SECTION 7: Handling and storage and container and available.       Not available.       Not available.         7.1. Precautions for safe storage, including any incompatibilities       Avoid contact with skin, eyes and clothing.       Not available.         7.3. Specific end use(s)       Not available.       SECTION 3: Exposure controls/personal protection       Storage, including any incompatibilities         7.1. Control parameters       Occupational exposure limits (WELs)       Yalue       Storage including any incompatibilities         7.3. Specific end use(s)       Not available. #### Individual protection measures, such as personal protective equipment

General information	Use personal protective equipment to minimize exposure to skin and eye.
Eye/face protection	Not available.
Skin protection	
- Hand protection	Not available.
- Other	Not available.
<b>Respiratory protection</b>	Not available.
Thermal hazards	Not available.
Hygiene measures	Handle in accordance with good industrial hygiene and safety practice.
Environmental exposure controls	Not available.

### **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Not available.
Color	Black.
Odor	Not available.
Odor threshold	Not available.
рН	7.5 - 9
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	> 230.0 °F (> 110.0 °C) Pensky-Martens Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Explosive properties	Not available.
Oxidizing properties	Not determined
9.2. Other information	
voc	< 130.2 g/L

### **SECTION 10: Stability and reactivity**

,	·····,
10.1. Reactivity	Not available.
10.2. Chemical stability	Stable under recommended storage conditions.
10.3. Possibility of hazardous reactions	Will not occur.
10.4. Conditions to avoid	Not available.
10.5. Incompatible materials	Incompatible with strong bases and oxidizing agents.
10.6. Hazardous decomposition products	Upon decomposition, this product may yield gaseous nitrogen oxides, carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

SECTION 11: Toxicologic	al information		
General information	Not available.		
Information on likely routes of	exposure		
Inhalation	Under normal conditions of intended use, this material is no	ot expected to be an inhalation hazard	
Skin contact	Contact with skin may result in mild irritation.		
Eye contact	Contact with eyes may result in mild irritation.		
Ingestion	Health injuries are not known or expected under normal us	e.	
Symptoms	Not available.		
11.1. Information on toxicologic	cal effects		
Acute toxicity	Based on available data, the classification criteria are not n	net.	
Components	Species Tes	t Results	
2-pyrrolidone (CAS 616-45-5)			
Acute			
Oral			
LD50	Rat > 50	00 mg/kg	
Carbon black (CAS 1333-86-4)			
<u>Acute</u>			
Oral			
LD50	Rat > 10	000 mg/kg	
Skin corrosion/irritation	Based on available data, the classification criteria are not n	net.	
Serious eye damage/eye rritation	Based on available data, the classification criteria are not met. Not classified as an irritant according to, OECD 405.		
Respiratory sensitization	Based on available data, the classification criteria are not n	net.	
Skin sensitization	Based on available data, the classification criteria are not n	net.	
Germ cell mutagenicity	Based on available data, the classification criteria are not n	net.	
Carcinogenicity	Based on available data, the classification criteria are not met.		
	Carbon black is classified as a carcinogen by the IARC (po 2B) and by the State of California under Proposition 65. In organizations indicate that exposure to carbon black, per so bound within a product matrix, specifically, rubber, ink, or p bound form in this preparation.	their evaluations of carbon black, bot e, does not occur when it remains	
IARC Monographs. Overall	Evaluation of Carcinogenicity		
Carbon black (CAS 1333	3-86-4) 2B Possibly carcinogenic to	b humans.	
Reproductive toxicity	Based on available data, the classification criteria are not n	net.	
Specific target organ toxicity - single exposure	Based on available data, the classification criteria are not n	net.	
Specific target organ toxicity - repeated exposure	Based on available data, the classification criteria are not n	net.	
Aspiration hazard	Based on available data, the classification criteria are not n	net.	
Mixture versus substance	Not available.		
Other information	Complete toxicity data are not available for this specific for Refer to Section 2 for potential health effects and Section 4		
SECTION 12: Ecological	information		
12.1. Toxicity			
Aquatic toxicity	This product has not been tested for ecological effects.		
Components		lost Bosults	

Components		Species	Test Results
2-pyrrolidone (CAS 616-45-5)			
Aquatic			
Crustacea	EC50	Water flea (Daphnia pulex)	13.21 mg/l, 48 hours
12.2. Persistence and degradability	Not available.		
12.3. Bioaccumulative potential	Not available.		

Partition coefficient n-octanol/water (log Kow) 2-pyrrolidone	-0.85
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	Not available.
12.5. Results of PBT and vPvB assessment	Not a PBT or vPvB substance or mixture.
12.6. Other adverse effects	Not available.

### **SECTION 13: Disposal considerations**

13.1. Waste treatment methods	
Residual waste	Not available.
Contaminated packaging	Not available.
EU waste code	Not available.
Disposal methods/information	Do not allow this material to drain into sewers/water supplies. Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations. Do not dispose of together with general office waste. Ensure collection and disposal with an appropriately licensed waste contractor.
	HP's Planet Partners (trademark) supplies recycling program enables simple, convenient recycling of HP original inkjet and LaserJet supplies. For more information and to determine if this service is available in your location, please visit http://www.hp.com/recycle.

### **SECTION 14: Transport information**

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

#### ADR

Not regulated as dangerous goods.

Not a dangerous good under DOT, IATA, ADR, IMDG, or RID.

### **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **EU** regulations

**Further information**

Not listed.			
Other regulations	All chemical substances in this HP product have been notified or are exempt from notification under chemical substances notification laws in the following countries: US (TSCA), EU (EINECS/ELINCS), Switzerland, Canada (DSL/NDSL), Australia, Japan, Philippines, South Korea, New Zealand, and China.		
Other information	Specific Provisions: Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (in the amended version OJ L 396 from 29.05.2007 page 3 with further rectifications and amendments).		
National regulations	Not available.		
15.2. Chemical safety assessment	See attached SUMI or GEIS document, if applicable.		
SECTION 16: Other inform	mation		
References	Regulation (EC) No. 1907/2006 of December 18, 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and establishing a European Chemicals Agency (REACH).		
	Regulation (EU) 2015/830 of May 28, 2015 amending Regulation (EC) No. 1907/2006.		
	Regulation (EC) No. 1272/2008 of December 16, 2008 on classification, labeling and packaging of substances and mixtures, and amendments (CLP).		
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.		
Full text of any H-statements not written out in full under Sections 2 to 15	H319 Causes serious eye irritation.		
Revision information	None.		
Training information	Follow training instructions when handling this material.		
Disclaimer	This Safety Data Sheet document is provided without charge to customers of HP. Data is the most current known to HP at the time of preparation of this document and is believed to be accurate. It should not be construed as guaranteeing specific properties of the products as described or suitability for a particular application. This document was prepared to the requirements of the jurisdiction specified in Section 1 above and may not meet regulatory requirements in other countries.		
	This safety data sheet is meant to convey information about HP inks (toners) provided in HP Original ink (toner) supplies. If our Safety Data Sheet has been provided to you with a refilled, remanufactured, compatible or other non-HP Original supply please be aware that the information contained herein was not meant to convey information about such products and there could be considerable differences from information in this document and the safety information for the product you purchased. Please contact the seller of the refilled, remanufactured or compatible supplies for applicable information, including information on personal protective equipment, exposure risks and safe handling guidance. HP does not accept refilled, remanufactured or compatible supplies in our recycling programs.		

#### **Explanation of abbreviations**

A 0.011	American Conference of Covernmental Industrial University
ACGIH	American Conference of Governmental Industrial Hygienists
CAS	Chemical Abstracts Service
CERCLA	Comprehensive Environmental Response Compensation and Liability Act
CFR	Code of Federal Regulations
COC	Cleveland Open Cup
DOT	Department of Transportation
EPCRA	Emergency Planning and Community Right-to-Know Act (aka SARA)
IARC	International Agency for Research on Cancer
NIOSH	National Institute for Occupational Safety and Health
NTP	National Toxicology Program
OSHA	Occupational Safety and Health Administration
PEL	Permissible Exposure Limit
RCRA	Resource Conservation and Recovery Act
REC	Recommended
REL	Recommended Exposure Limit
SARA	Superfund Amendments and Reauthorization Act of 1986
STEL	Short-Term Exposure Limit
TCLP	Toxicity Characteristics Leaching Procedure
TLV	Threshold Limit Value
TSCA	Toxic Substances Control Act
VOC	Volatile Organic Compounds

## Safe Use of Mixture Information (SUMI)

# Water Based Ink: WB01 \*English\*

#### Disclaimer

This SUMI is a generic document for communicating conditions of safe use of a product in response to the REACH obligation. This document relates only to conditions of safe use and is not specific to a product. By adding this SUMI to a specific product SDS, the importer/formulator declares that the mixture can safely be used following the instructions below. Following occupational health legislation, the employer of workers remains responsible for communicating relevant use information to employees. When developing workplace instructions for employees, SUMI Sheets should always be considered in combination with the SDS and the label of the product. Derived No Effect Levels (DNEL) and Predicted No Effect Concentration (PNEC) values of substances derived from the Chemical Safety Assessment (CSA) will be given in section 8 of the SDS.

The REACH registration number(s), where applicable, completes an extended product SDS.

, , , , , , , , , , , , , , , , , , ,	3, where upplicable, completes an extended product 3D3.	
Operational conditions		
Maximum duration	Up to 8 hours per day	
Frequency of exposure	< 240 days per year	
Process conditions	Covers use at ambient temperatures. Adequate ventilation should be provide for the areas where printing is performed. ANSI/ASHRAE Standard 62.1-2013 provides guidelines to ensure acceptable air quality in the workspace. Avoid direct contact. Regular cleaning of equipment and work area. Supervision in place to check that Risk Management Measures are in place are being correctly used and Operational Conditions	
	followed.	
Risk management measures		
Conditions and measures	Wear safety glasses with side shields (or goggles), if splashing is possible.	
related to Personal Protection		
	Wear appropriate chemical resistent gloves: see section 8 of the SDS.	
Equipment, hygiene and	Wear appropriate chemical resistent clothing.	
health evaluation	In case of inadequate ventilation wear respiratory protection.	
	Eye wash fountain and emergency showers are recommended.	
	Avoid breathing mist/vapours.	
	Avoid contact with skin, eyes and clothing.	
	Training of workers in relation to proper use and maintenance of all Personal protection equipment (PPE) must be ensured.	
Good practice advice		
Use personal protective equipme	ent as required.	
Wash hands before breaks and a	after work.	
Keep good industrial hygiene and	d safety practice.	
Use only with adequate ventilati		
Do no eat, drink or smoke when		
Wash contaminated clothing be		
Store at room temperature.		
Environmental measures		
	in intercourse/unitercourselies	
Do not allow this material to dra		
-	ding to Local, State, Federal and Provincial Environmental Regulations.	
	ith appropriately licenced waste contractor.	
Use descriptors		
IS-Use at industrial sites		
PW-Widespread use by profession	onal workers	
SU7-Printing and reproduction n	nedia	
PC18-Inks and Toners		
PROC1-Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions.		
PROC2-Chemical production or r	refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions	
condition PROC8a-Transfer of substance o	tion in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment r mixture (charging and discharging) at non-dedicated facilities r mixture (charging and discharging) at dedicated facilities	
ERC5-Use at industrial site leading		
	o inclusion into/onto article (indoor)	
Additional information on prod		
	s on the label, the classification of the mixture is provided.	
Most of the water based inks are "not classified".		
The classification of the mixture is based on the individuel ingredients and their concentration within the mixture.		
All ingredients contributing to the classification are stated in Section 3 of the SDS.		
Relevant limit values of ingredients on which the exposure assessment is based, are listed in section 8 of the SDS.		
	zing ingredients that may cause allergic reaction to certain people.	
Section 2 of the SDS states these
