Technical Information

SIMPLY BIO LAUNDRY POWDER PODS provide powerful biological textile cleaning even in cold water. Suitable for both domestic and industrial uses, Simply Bio Laundry Pods can be used in both soft and hard water. Efficient at removing heavy soil and stains with a gentle fragrance. Dermatologically tested.

SIMPLY BIO LAUNDRY POWDER PODS have a gentle fragrance and a powerful enzyme with a short lifespan. Simply Bio is clean rinsing to ensure no galling residues are left. A vapour phase occurs in solution at approx. 40°C which produces a peracetic acid solution helping to sanitize and destroy bacteria. This is particularly important to ensure that there is no cross contamination of laundered bedding, linen or garments.

Properties

Appearance: White powder with green speckles (encapsulated in dissolving film).

Odour: Pleasant fragrance.

pH: ca. 9 (1%)

Solubility: Easily soluble in water.

SIMPLY BIO LAUNDRY POWDER PODS must be kept dry and in a sealed container. Handle with dry hands. The Pods have a coating of dissolving PVA film ensuring there is no direct skin contact with the encapsulated chemicals

SIMPLY BIO LAUNDRY POWDER PODS ensure strict portion control of chemical to help control environmental impacts as well as costs.

SIMPLY BIO LAUNDRY POWDER PODS Are phosphate free, suitable for septic tanks and, when further diluted with rainwater, graywater reclamation.
