

Naturama

Green • Natural • Powerful

Naturama Elite is a hospital Grade cleaning agent that is made purely from plants and minerals. This 3-in-1 product cleans the surface, sanitises killing up to 99.999% of bacteria and viruses including coronavirus, and continues to provide a level of protection for up to 45 days.

Green. Natural. Powerful

Made purely from plants and minerals, Naturama Elite is totally natural and extremely powerful, it has no negative impact on the environment and the user's health, unlike most other cleaning products. Naturama is Food Safe, Halal, Vegan and Kosher.

3-in-1

Naturama Elite cleans the surface, sanitises and provides a level of protection for up to 45 days.

Testing

An independent laboratory has tested Naturama Elite to the highest possible standards, including British Standards BS EN 1276 and BS EN 14476. Naturama was tested in the most stringent conditions against many bacteria and viruses including one of the toughest strains of Coronavirus - Feline Coronavirus. Naturama Elite is proven to kill 99.999% of bacteria and viruses including envelope viruses.

Versatile Applications

Designed to be used on all surfaces, with no bleaching or staining. This product can be used in all machinery, including foggers, misters and carpet cleaners, as well as a spray and wipe method.

ATP Testing

Naturama Premium regularly achieves zero scores in ATP testing, this is testament to the immense power of the product.

NATURAMA - CONSTRUCTION - ZERO IN-LAND

Method/Target	Test Method	Standard	Result
Sanitization	BS EN 1276	Sanitization	0.000
Disinfection	BS EN 14476	Disinfection	0.000
Antibacterial	BS EN 1276	Antibacterial	0.000
Antiviral	BS EN 14476	Antiviral	0.000

Antistatic	BS EN 14476	Antistatic	0.000

Provides protection for up to 45 days

Environmentally Friendly

Not Tested on Animals

Hypoallergenic Formula

Made from Plant Extracts

Alcohol Free

Non Toxic & VOC Free

How to use

This product is **READY TO USE**, please do not dilute. No need to clean surface first as this product cleans, sanitises and protects. Apply to surface in Spray and Wipe Method, or use in any machinery (wiping not needed if machinery used). Leave to dry

VOC's

Unlike nearly all cleaning products Naturama doesn't contain Volatile Organic Compounds (VOC's). Many of today's respiratory illnesses such as vocational asthma can be directly attributed to VOC's. The use of Naturama provides reassurance that you are limiting exposure to these harmful air bound chemicals, therefore taking steps to safeguard the health of others.

Accreditations

Naturama Elite has been tested to the highest standards and is accredited to BS EN 1276 and BS EN 14476.

Elite Testing

Naturama Elite is tested to BS EN 1276 and BS EN 14476 standards and achieved the following results;

Organism	Log Reduction (Clean Conditions)
