Product name : SurgeArrest

Essential SurgeArrest 5 outlets with 5V, 2.4A 2 port USB Charger 230V UK

APC SurgeArrest White 5 AC outlet(s) 230 V 1.83 m:

APC surge protectors undergo stringent testing by IEEE, and are awarded "let-through ratings", which indicate the maximum voltage level that can possibly reach your equipment after a surge or voltage spike has passed through an electric surge protector. Lower IEEE let-through ratings indicate better protection and performance. The APC Essential SurgeArrest series offers optimal performance with a let-through rating of less than 330V for North American products, and a rating of less than 15% for products sold worldwide. All APC products comply with local agency safety requirements, including UL in North America and CE/Kema/Gost/C-tick/A-Tick/Telepermit in their respective regions.

SurgeArrest will warn you if its circuitry has been damaged by heavy strike or power line surge and it is unable to provide 100% protection. If still under warranty, APC will then replace your damaged SurgeArrest free of charge.

Power		Operational conditions	
Surge energy rating *	918 J	Operating temperature (T-T)	0 - 40 °C
