SONICWALL®

Gen 7 Trade-Up Promotion

22% OFF

Get an additional 22% off when upgrading to a SonicWall Gen 7 NGFW.

For a limited time, SonicWall is offering existing customers and partners a 22% savings when they trade in their legacy SonicWall appliance for a new Gen 7 Next-Gen firewall appliance.

When your customers upgrade to SonicWall's Gen 7 NGFWs, they gain significantly improved performance, high port density, groundbreaking firewall inspection, DPI performance, IPSec VPN performance and more. Plus, they're powered by SonicOS 7, which has been redeveloped from the ground up to be more advanced, agile and user-friendly than any of its predecessors.

Best of all, upgrading your customers' SonicWall firewall appliance is quick and seamless: Their existing subscription and support services transfer directly to the new appliance, so they can start enjoying the best firewalls SonicWall has to offer with little to no downtime.

ACT FAST: This promotion lasts through July 31 or while supplies last.
