- Pixel: 2MP (Real without Interpolation)
- Framerate: 30fps
- Image sensor: CMOS
- Lens: Glass
- FOV: 67
- Focus method: Fixed
- Focus length: 8cm +
- Interface: USB-A
- Driver: Plug and Play
- Microphone: Built in
- Features slideable lens cover for privacy.

- EAN: 5060756096837 (White) , 5060756096844 (Black)

## What is Bioplastic?

For several years, Accuratus has worked to create a fully biodegradable bioplastic. After extensive research and testing we are proud to reveal the CA-BI002-2023Rev2 Bioplastic, made using wheatgrass and formed from a natural polymer called lignin, which is found in straw. The straw is broken down by bacteria and then mixed with natural sugars, becoming a workable material with similar properties to plastic – without the use of any artificial chemicals or fossil fuels. The result is a range of stylish, high-quality products, with all the quality of life features you've come to expect from Accuratus.

## Physical Specifications

- Dimensions: 48x65x96mm
- Weight: 123g
